SCIENCE—Natural Philosophy, *Peck's Ganot;* Astronomy, *Lockyers;* Chemistry, *Steele;* Geology, *Dana.*

SENIOR CLASS.

MENTAL PHILOSOPHY—*Haven.*

LOGIC—*Jevons.*

POLITICAL ECONOMY—*Wayland.*

MORAL PHILOSOPHY—*Fairchild.*

EVIDENCES OF CHRISTIANITY—*Hopkins.*

HISTORY—History of Civilization, *Guizot.*

NATURAL THEOLOGY—*Chadbourne.*

German, or Civil Liberty and Lectures on Art.

COLLEGE PREPARATORY COURSE.

For admission to this course, a thorough examination must be passed in Spelling, Geography, United States History, Grammar, and Arithmetic as far as Square Root.

JUNIOR CLASS.

English—Grammar and Composition.
Mathematics—Elementary Algebra, *Loomis.*
Latin—Allen's New Latin Method.
Physical Geography—Commercial Geography.
Good Morals and Gentle Manners, *Gow.*
Reading, Drawing, Music.

MIDDLE CLASS.

English—Seven British Classics, or equivalent.
Mathematics—Arithmetic, One Term; Bookkeeping.
Science—Physiology, One Term; Botany.
Latin—Grammar, *Allen* and *Greenough;* Cæsar, Gallic War, *Chase* and *Stuart;* Cicero, Orations, *Chase* and *Stuart.*
School Economy and Primary Methods.
Drawing, Music.

SENIOR CLASS.

English—Literature, *Gilman;* General History, *Swinton.*
Mathematics—Plane Geometry, *Bradbury.*
Science—Physics, Temperance.
Latin—Cicero, Orations; Vergil, Aeneid, *Chase* and *Stuart;* Latin Prose Composition, *Jones.*

NORMAL COURSE.

(Formerly Higher Normal Course.)

The requirements for admission to this course are the same as for the College Preparatory Course.

A certificate of graduation will be given to those who complete this course.

JUNIOR CLASS.

English—Grammar and Composition.
Mathematics—Elementary Algebra, *Loomis.*
Latin—Allen's New Latin Method.
Physical Geography, Commercial Geography.
Good Morals and Gentle Manners, *Gow.*
Reading, Drawing, Music.

JUNIOR MIDDLE CLASS.

English—Seven British Classics, or equivalent.
Mathematics—Arithmetic, Bookkeeping.
Science—Physiology, Botany.
School Economy and Primary Methods.
Drawing, Music.

SENIOR MIDDLE CLASS.

ENGLISH—Literature, *Gilman.*
MATHEMATICS—Plane Geometry, *Bradbury.*
SCIENCE—Physics, Temperance.
HISTORY—General, *Swinton;* New Testament, *Smith.*
Drawing, Music, Practice Teaching.

SENIOR CLASS,

MENTAL PHILOSOPHY—*Rivers;* Moral Philosophy, *Peabody.*
ASTRONOMY—*Lockyer's,* Geology.
UNITED STATES HISTORY—Civil Government.
Pedagogics, Practice Teaching.
Reviews of Common Branches.

GRAMMAR SCHOOL.

Although the following course of study covers eight years, there is no class in this school below the fourth year.

FIRST YEAR.

Reading Charts, First Reader, Number Lessons, Object Lessons, (Place, Direction, Plants,) Drawing, Writing with pencils, singing.

SECOND YEAR.

Second Reader, Oral Spelling, Number Lessons, Object Lessons, (Animals, Land and Water,) Drawing, Writing with pencils, Singing.

THIRD YAER.

Third Reader begun, Primary Arithmetic, Geography of city or county and State, Globe Lessons, Dictation Exercises, Copy Book No. 1, Spelling, Singing.

FOURTH YEAR.
(Fifth Grade)

Third Reader and Supplementary Reading, Intermediate Arithmetic through Fractions, Primary Geography (text-book,) Language Lessons, (Knox or Powell,) Written Spelling, Copy-Books Nos. 2 and 3, Music.

FIFTH YEAR.
(Fourth Grade.)

Fourth Reader begun, Intermediate Arithmetic completed, Larger Geography begun, (U. S. and N. A.,) Language Lessons, Spelling, Copy-Books, Nos. 3 and 4, Music.

SIXTH YEAR.
(Third Grade.)

Fourth Reader, Practical Arithmetic through Fractions, Geography of S. A. and Europe, Elementary Grammar, (Reed and Kellogg,) Familiar Science, Writing, Music.

SEVENTH YEAR.
(Second Grade.)

Fifth Reader, Practical Arithmetic through Percentage, Mental Arithmetic, Grammar, Geography completed, Music.

EIGHTH YEAR.
(First Grade.)

Reading, Practical Arithmetic completed, Grammar and Composition, U. S. History, Alcohol and Hygiene, (Coleman,) Music.

Weekly Bible Lessons throughout the course.

Written examinations are required in the studies of all the courses at the close of the Fall and Winter Terms, and oral examinations annually during the three days preceding commencement; also written examinations are required frequently in common English branches, from all students above the Grammar School.

GENERAL INFORMATION.

CALENDAR.

Anniversary Exercises, June 11, 12, 13 and 14, 1883.

Annual Meeting of the Alumni, June 14, 1883.

Examination for Admission, October 3, 1883.

Fall Term begins, Wednesday, October 3, 1883.

Vacation Days, Christmas and New Years.

Winter Term begins, Tuesday, January 2, 1884.

Vacation, the last week in March. 1884.

Summer Term begins, Monday, March 31, 1884.

Anniversary Exercises, June 9, 10, 11 and 12, 1884.

Commencement Day, Thursday, June 12, 1884.

MEMBERSHIP.

For membership in the Institution a person must have a good moral character, and must sign a pledge to abstain from the use of all intoxicating drinks and tobacco in every form, while a member of the school.

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has had a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained.

Pupils from other schools must present certificates of honorable dismission.

Applications for admission should be made at least a month before the beginning of the school year.

Pupils should enter the first day of the school year that they may be immediately classified, and thus lose no time.

Any who cannot be here the first day, should so time their coming as to get here on Wednesday, as Thursday will be the day for examination for admission.

Students lose their membership when absent one month. During vacation, as well as during term time, students are held amenable to the authority of the school.

Those who have not a fixed purpose to improve their time, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

EXPENSES.

Board, including furnished rooms, fuel, lights and washing, per month,		$10 00
Tuition, in College Course,	"	2 00
Tuition, in all other Courses,	"	1 00
Instruction in Instrumental Music,	"	1 00
Use of Instrument one hour per day,	"	1 00

All payments must be made in advance on the first day of each month.

All pupils are required to work for the Institution at least one hour a day. This requirement makes the above low charges possible.

Remittances in payment of bills should be made by money-orders, drafts, in registered letters, or by express.

Make money-orders and drafts payable, during 1883–84, to H. Bumstead, and address all moneys to him. Receipts will be promptly returned.

STUDENT AID.

Some students have been aided during past years by the Peabody Fund and contributions from the friends of popular education. It is expected that this help will be continued.

Besides this the King and the Cassedy Scholarship Funds will be available for next school year.

Persons should not come expecting to receive aid until they have applied for it, and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, and as far as possible, what pursuit they intend to follow.

It is expected that those who are aided will, when able, return the amount to aid others.

TEACHING IN VACATION.

Nearly all of those who are sufficiently advanced in scholarship aid themselves by teaching. The demand for teachers is usually in excess of the supply.

County Superintendents of Schools, and others desiring teachers from this Institution, will find it for their interest to arrange their schools, if possible, so as to include its summer vacation, viz: the months of July and August and September. Communications from all such officers will receive prompt attention.

Students of this Institution, desiring to teach, will be furnished certificates of membership and standing. As a means of protection against imposition, applicants for schools claiming to be from Atlanta University should be required to exhibit such certificates.

It is expected that a majority of the students will engage in teaching, and instruction in all departments is adapted to that end. Earnest efforts are made to induce young men to prepare for the ministry.

GRAVES LIBRARY.

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains over six thousand volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, which secures its steady growth.

In connection with the Library is a Reading Room, well supplied with the leading papers and periodicals of the country, and to both the students have free access.

APPARATUS.

A good beginning has been made in procuring Philosophical Apparatus. Enough has been obtained for illustrating some of the simpler principles of Natural Science, and also instruments for Surveying and Engineering purposes.

An excellent telescope and microscope have been secured, largely by the gifts of friends.

MUSIC.

Facilities for instruction in both Vocal and Instrumental Music are ample. The elements of Vocal Music are taught without extra charge, by the Tonic Sol-fa Method.

For practice in Instrumental Music, there are four organs and two pianos. (See expenses.)

INDUSTRIAL TRAINING.

Young women are taught various branches of household science, such as plain sewing, cooking, and nursing the sick.

Young men are taught some of the principles of farming and gardening by an experienced farmer connected with the Institution.

Instruction in the use of carpenter's tools will be given next year.

GOVERNMENT.

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a "fixed purpose to improve his time, and an earnest desire to fit himself for usefulness," parents will be requested to take him home.

Suspension from school is resorted to when other means of correction fail.

When students are exposing themselves to permanent harm, it is expected that high-minded individuals will be governed by the dictates of conscience and common-sense, rather than by any false sense of honor, in regard to disclosing the facts to the proper authority.

MISCELLANEOUS SUGGESTIONS.

Each pupil should bring a Bible. It is needed for private reading, for the Sunday-school, and for the weekly Bible lesson.

It is well to bring the text books formerly used.

All should be provided with *warm* clothing.

Young women must have *rubbers* and *waterproofs*.

Economy and good taste demand plain and simple clothing. Parents are urged to co-operate with teachers in seeing that none other is worn.

Parents will do well not to send clothing unless the request for it is endorsed by the Matron. No extra dress is required for the close of school.

Experience has taught that much evil comes from pupils receiving food or large quantities of fruit or candy from home. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed to Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, except by special permission.

Boarders are expected to furnish their own towels.

Keeping or using fire arms on the premises is forbidden.

During term-time students shall not, without permission, actively participate in any political or mass meeting.

Students from a distance should arrange their journeys so as not to arrive on the Sabbath, as they will not be admitted on that day. When going away, they should apply for dismission in season to arrive at home before the Sabbath.

Students are not allowed to make visits on the Sabbath, and their friends are earnestly requested not to call upon them on that day.

The Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Among the appropriate means for securing such results, the Sabbath, with its religious services, is most important. The excitement of visiting friends prevents, in a great measure, the benefit that may be derived from a proper observance of the day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellecual, but also their physical, social, moral, and religious culture, receive careful attention.

BUILDINGS.

The buildings are situated on high ground in the western part of the city, and are surrounded by about sixty acres of land belonging to the Institution.

DORMITORIES.—During the summer of 1869 a plain, four storied, brick building was erected, containing sleeping-rooms for about forty pupils, and also a parlor, dining room, kitchen, etc. It was designed for a girls' dormitory, but, during the first year, furnished all accommodations, both school and boarding, for boys and girls. In August of 1870, another building of the same style, but larger, containing sleeping-rooms for about sixty boys, besides temporary school-rooms, was completed. In the summer of 1871 this building was enlarged by a wing, providing rooms for about forty additional pupils, and other school-rooms. In the summer of 1880, a portion of the gift of Mrs. Stone, of Malden, Mass., was used in erecting a wing to the first named building. This wing provides for fifty additional pupils, and has a large study hall.

STONE HALL.—This building stands between the two dormitories, and is the gift of Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel and library; the school-room, recitation and lecture

rooms for the more advanced students; the philosophical and chemical laboratory; offices, etc. This building and the two dormitories are heated by steam from one large engine.

THE COTTAGE.—By the generosity of Prof. Chase, the school has had the use of a cottage, in which, under the charge of a matron, the girls of the graduating class have lived and learned housekeeping by practice.

THE BARN.—A barn forty by sixty feet with cellar the same size, has been built during the year. This furnishes facilities for the better development of the farm work of the Institution.

PROJECTED BUILDINGS.—A shop with bench room for twenty boys, in which instruction in the use of wood-working tools will be given, is to be built early in the fall. Mr. F. C. Sessions, of Columbus, Ohio, has generously pledged the money for its erection. It is hoped that other friends will furnish money for a permanent Cottage for the Housekeeping School, and also for a building for the Grammar School, thus giving it greater advantages as a practice school for the Normal Department.

Another Dormitory for girls is needed immediately.

FUNDS.

The school being almost entirely without endowments, is dependent upon the American Missionary Association for all support not derived from other sources.

The Legislature of Georgia, in 1870, appropriated to this school $8,000. The same amount was received in 1871 and in 1873. In 1874 a bill was almost unanimously passed making an annual appropriation of $8,000. The bill was entitled "An act equitably to adjust the claims of the colored people to a share of the Agricultural Land Scrip." It made the appropriation on condition that the Board of Visitors of the University of Georgia should also visit this school: that the money should not be paid by the Governor till a commission of three members of the Faculty of the University of Georgia had approved the plan of the Trustees for the expenditure of the money, and that the school should educate, free of charge for tuition, one pupil for every member of the House of Representatives, to be nominated by the members The Constitutional Convention of 1877 recognized the constitutionality of such legislation.

By the recommendation of Hon. G. J. Orr, State School Commis-

sioner, the Trustees of the Peabody Fund have for several years, prior to the present, appropriated $1,000 annually for normal scholarships.

Mr. Tuthill King, of Chicago, has founded the King Scholarship Fund of five thousand dollars.

Mr. J. H. Cassedy, of New York, has founded the Cassedy Scholarship Fund of five thousand dollars.

The late Hon. Wm. E. Dodge, by his will, founds the Dodge Scholarship Fund, of five thousand dollars.

WANTS.

Our needs are such as young Colleges have—endowments, scholarships, reference books, maps, apparatus, etc.

It is hoped that the time is not far distant when funds will flow into the treasury of the Institution as freely as they do into colleges in other parts of the country.

THE WORK OF OUR PUPILS.

Nearly all the graduates and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the three months of the summer vacation a large number of students engage in teaching, and it is estimated that over ten thousand children in Georgia are taught, annually, by those who have been connected with this Institution.

CONCERNING ENDOWMENTS.

[The following appeal from the officers of the American Missionary Association is inserted here as being of interest to the friends of Atlanta University.]

The success already achieved by the institutions of this Association and the favor already won by them among all classes of the Southern people, amply justify the work hitherto carried on. It is believed that the time has fully come when this work should be put upon a more substantial basis. Permanent endowments are needed that these institutions may achieve that larger success which is rightly expected of them.

Certain phases of our work, sometimes overlooked, greatly emphasize this need. Careful attention is invited to the following points:

1. The Unusual Difficulties Attending the Successful Prosecution of our Work.—It is no ordinary school-teaching that we have undertaken to carry on in the South. Our pupils bring to the class-

room absolutely no inheritance of scholarly mind. Only two or three generations separate them from the heathenism of the most uncivilized continent in the world. Some of them come with the most meagre vocabulary—a few hundred tattered and torn remnants of English words. Many of them have no equipment of general information, such as other children absorb from their parents. But worse than all is the evil inheritance which many of our pupils bring from centuries of heathenism and slavery. Let us be frank and add that even the great boon of freedom, so righteously conferred, has, by the very suddenness of its bestowal, unavoidably brought peculiar peril and damage to many of the freedmen.

It is not a light task to deal with such material as this. Moral character must be developed at the outset and carefully nurtured all along. The rubbish of incorrect speech must be cleared away, and a correct and copious vocabulary formed. The commonest facts of general information must be imparted. Of course, in our higher institutions there is less of such work to be done; but a still more responsible and difficult task takes its place—that of preparing college and normal students to perform this same arduous primary work as teachers and leaders of their own people. Never was such a mass of ignorance thrown so suddenly upon the educational resources of a civilized people. But there is a brighter side.

2. The Unprecedented Facilities now Available for the Prosecution of our Work.—Never was a civilized people so well prepared as our nation now is to meet this great emergency. The progress made in the science of education was never so great as it has been in recent years. The adaptation of methods of teaching to the varying necessities of pupils was never so well understood as now. Text-books and school apparatus, juvenile literature and helps for Biblical study were never so excellent as at present. The value of industrial training, even as an element in the most liberal culture, is receiving unwonted emphasis. In short, the accumulated wisdom of the latest and best century stands ready to serve us, if we only summon its aid. Much of it is in service already; but far more is needed than our present financial resources can command.

3. The Necessity of a High Order of Talent in the Teachers and Managers of our Work.—To understand thoroughly the needs of such pupils as crowd our schools, and to apply successfully the most approved educational methods, requires something more than an ordinary teacher. An eminent advocate of popular education has stated it as his belief that the most interesting and valuable improvements yet to be made in pedagogical science will be made in connection with the educa-

tion of the colored people. But tyros and bunglers in teaching will never give us much that is interesting or valuable. The very best teaching ability must continually be employed in our schools and colleges, and be properly remunerated.

4. The Relation of our Work to the Future of Education in the South.—The justification of all Northern missionary teaching in the South has been that it was designed to accomplish what the Southern people were not prepared to do themselves. To whatever extent they may in the future take up our work, it will still be our mission to maintain that helpful leadership which it has been our privilege to exercise from the beginning. Our institutions should be the best and do the best work of any in the South. We should be the first to discern the peculiar needs of Southern pupils and the first to introduce whatever is new and excellent in educational appliances. We ought, for instance, to have at once industrial departments connected with all our larger institutions. Every normal and college graduate should be able to use intelligently either the wood-working or the iron-working tools; and the same expenditure of time and money which the Harvard and Yale boys make in learning to wield the oar and the bat would accomplish this much desired end. Our institutions are being visited by teachers eager to witness the advanced methods of teaching already introduced. We should always be able to reward such visitors by showing them something which they have not seen before. Above all, we should send out from our institutions such noble specimens of young manhood and womanhood as shall prove a stimulus to the whole educational work in the South.

The destiny of the colored race is to be largely determined by the character of the young men and women now crowding forward into active life. The immediate future will demand all our resources, and more, to save these young people. In the more distant future, our success as influential leaders in education will depend largely upon the promptness with which our institutions are *now* put upon a substantial basis. Every consideration of past success and of present and future need enforces our plea that these endowments should be provided at once.

Hon. Wm. B. Washburn, *President.*
Rev. M. E. Strieby, D. D., *Cor. Sec'y.*
H. W. Hubbard, Esq., *Treasurer.*

GARFIELD SCHOLARSHIP.

The Garfield Scholarship of one thousand dollars, is being raised in the South. The amount already received has come chiefly from the "Weekly Offerings" at the University, from former pupils, and from schools under the instruction of present and former pupils.

The following amounts have been received up to June 7th, 1883:

Previously acknowledged,	$156 92
NORTH CAROLINA.	
Charlotte, Rev. G. S. Jones,	1 00
SOUTH CAROLINA.	
Charleston, Annie B. Powers,	10 00
GEORGIA.

ATLANTA UNIVERSITY.

REPORT OF THE BOARD OF EXAMINERS.

ATLANTA, June 19, 1882.

The board of visitors having concluded its labors at Athens, re-assembled on Monday, the 19th instant, to receive the report of the sub-committee of their number who were sent to attend the examination of Atlanta University. The report, which was unanimously adopted, is as follows:

ATLANTA, June 16, 1882.

Gentlemen of the Board of Visitors:

The committee appointed to represent your body at the recent annual examination of the students in the Atlanta University, beg leave to submit the following report:

The examination embraced the studies of the session in all the departments of the University—the grammar, the preparatory, the normal and the collegiate. Though conducted orally, we believe it was done with the utmost fairness, and indicated as clearly as is practicable on such occasions the individual and general scholarship of the students. Throughout all the exercises the committee, as well as other visitors, were invited to participate in the examination, and we discovered no evidence whatever of any disposition on the part of the instructors to conceal the deficiencies or to magnify the merits of a recitation. The results of these searching and impartial tests were not only satisfactory to your committee, but exceedingly gratifying. They indicated unmistakably the faithfulness, ability and skill of the teacher, and at the same time the capacity, docility and industry of the pupil. We do not believe that we have ever seen better teaching than we find done at the Atlanta University. Evidences of the same thoroughness appeared in all grades of the grammar school and throughout all the classes of the higher departments. This unusual excellence, we think, is largely due to the fact that the teachers are not only intelligent and conscientious workers, but that most of them have been trained in normal schools, where they have studied teaching as a profession, and where they have been placed abreast with the latest advancements in educational science. Surely their distinguished success in the case before us, one environed with difficulties of no ordinary character, furnishes a convincing argument in favor of the establishment of normal schools in connection with all our university systems.

We were particularly struck with one feature in the method of instruction adopted in this Institution, and that was the accuracy of the language in which every question was required to be answered. The answer is not only to be given correctly as to substance, but it must be expressed in words both grammatical and appropriate; if not, the pupil reciting is asked to correct it, and if unable to do so, it is passed to others of the class. An obvious result of a strict adherence to this rule is that the pupils of the Institution have acquired a habit of expressing themselves with a clearness, concise-

ness and propriety, which your committee think, under the circumstances, as remarkable as it is admirable, and well worthy of emulation by the teachers of other schools.

Another feature which we observed with great interest during the progress in the examination was the proficiency of the students in the more advanced branches. Popular opinion, while admitting the facility with which the colored student acquires elementary knowledge, has been somewhat skeptical as to his capacity for the higher branches of education. But in the examination which has just closed we have seen him quite as much at home in Latin, Greek, mathematics, ethics, mental and physical science as in the more rudimentary studies; and though we have not the means of knowing how many students have failed to sustain themselves in the academic and college courses, and have, therefore, been dropped from the class, still we have seen enough to convince us of the possibilities of the race in higher learning.

The question as to what position the classics should hold relatively in the curriculum of studies in an institution established exclusively for our colored people has given rise to some discussion—one party advocating, the other opposing, their prominence in the literary course. From what we have witnessed at the recent examination and previous ones, we think no objections can be properly urged against them on the ground of incapacity on the part of the learner; and as we hold that all available appliances necessary to a full development of mind should be found at every institution that aspires to the character of a university, we would deem it unfortunate that so important an element of education as Latin and Greek should fall into any disrepute in the Atlanta University, at least until further developments have been made as to practical results.

Your committee noticed another feature in the management of the University to which they desire to call your attention as worthy of high commendation, and that is the manual labor training that is here afforded in connection with the literary course. Every student, male and female, is required to work an hour each day at some useful labor, either on the farm connected with the Institution, or in the household and kitchen department. The tendency of this regulation is not only to greatly reduce the expenses of board, etc., but to induce habits of industry, and impart valuable practical information for every day use in after life. The farm, including the beautiful grounds immediately surrounding the college buildings, contains about sixty acres, and is under the direction of a thoroughly practical and energetic gentleman who keeps everything in admirable order, and brings out the best possible results. Specimens of field and garden crops, embracing a great variety of grasses and forage plants, cereals and vegetables, were exhibited to your committee, evincing great efficiency in this department. Samples of the culinary art were also shown us, and if our eyes and our palates did not deceive us, they reflected great credit on those who prepared them for our inspection and entertainment.

The education of the intellect, without a corresponding culture of the moral nature, to say the least of it, is a doubtful good to any people; to the colored people of the South, we believe, it would be a positive evil. We cannot, therefore, too highly commend the efforts made in the Atlanta University to blend the sanctions of our holy religion with teachings of science, thereby leading those who participate in the benefits of its instructions to understand and appreciate their duties to God and man, and thus become better as they become wiser.

The University depends mainly for its support upon the American Missionary Association, upon the annual appropriation of $8,000 by the State of Georgia, and upon private contributions, which, during the year ending on the 3d June, 1882, amounted in cash to $4,059.10.

Special contributions have been obtained for the establishment of an industrial department for instruction in the more useful trades.

"Stone Hall," the gift of Mrs. Valeria G. Stone, of Malden, Mass., is in process of erection. This will be an imposing structure, and is intended to contain the chapel library, chemical and philosophical apparatus, lecture and recitation rooms. Other new buildings are projected for the coming year.

At a recent meeting of the trustees of the University, a resolution was passed to institute forthwith a post-graduate course of two years for graduates of the Normal Department. Its privileges are to be open to those who have maintained a high standard in the regular course, and who gives promise of efficience in work for which this special training is designed to fit them, and the preference is to be given to graduates of one or more years standing. This course, while not neglecting intellectual culture, by providing for courses of reading and for attendance upon recitations and lectures, and for practice in teaching, is to provide special training in nursing the sick, sewing, cutting and making of garments, care of household affairs, the inauguration and management of mission work, and in general whatever training seems likely to prepare young women of culture for the responsible duties of actual life. At the same meeting the trustees directed the Executive Committee to select as soon as practicable, a suitable person as principal of this course of study, who shall also be matron of the family of young women who may be gathered for this purpose; and they are further directed to prepare plans for the suitable accommodation of such a family.

The trustees also voted that an industrial department for boys be at once organized, which shall provide for training in carpentry and other mechanical work; and the Executive Committee were authorized to make the necessary arrangements.

An important addition has been recently made to the library by the purchase of 1,200 volumes. An excellent telescope and microscope have been recently contributed to the philosophical apparatus. Three hundred and one students have been matriculated during the academic year. Of these 14 have been in the College Department, 22 in the Preparatory, 61 in the Normal, and 204 in the Grammar School; 142 were males, 159 females; 213 were boarders, and 88 were day scholars. Ten States of the Union were represented in the membership, and 58 counties of the State of Georgia.

The discipline maintained in the college seems to have been of the most efficient and healthful kind; and the deportment of the students is represented to have been unexceptionable.

In conclusion, your committee think that the Atlanta University is doing a great and good work, and meets fully the intellectual wants and capabilities of the colored race. We, therefore, most cordially commend it to the continued patronage of our State and the liberal benefactions of its friends.

JOHN H. FITTEN, *Chairman.*

SUMMARY.

College Course,		20
Senior Class,	3	
Junior Class,	2	
Sophomore Class,	7	
Freshman Class,	8	
Preparatory Course,		15
Senior Class,	3	
Middle Class,	12	
Junior Class, (See Normal Course.)		
Normal Course,		74
Senior Class,	12	
Senior Middle Class,	7	
Junior Middle Class,	14	
Junior Normal and Preparatory Classes,	41	
Grammar School Course,		201
First Grade,	22	
Second Grade,	27	
Third Grade,	37	
Fourth Grade,	52	
Fifth Grade,	63	
Whole Number of Students,		310
Boys,	159	
Girls,	151	
Boarders,	191	
Day Pupils,	119	
Number of Counties in Georgia represented,	61	
Number of States represented,	9	

COURSES OF STUDY.

THE FOLLOWING COURSES OF STUDY ARE NOW ESTABLISHED, AND OTHERS WILL BE ADDED AS MAY BE REQUIRED.

COLLEGE COURSE.

For admission to this course, pupils must pass a thorough examination in the common English branches, and also in the studies of the Preparatory course or their equivalent.

The degree of B. A. is given to graduates from this course.

FRESHMAN CLASS.

GREEK—Grammar, *Hadley;* First Lessons, *Boise;* Xenophon's Anabasis, Three Books, *Boise.*

LATIN—Cicero, On Old Age and Friendship, *Chase* and *Stuart;* Livy, History, *Chase* and *Stuart;* Latin Prose, *Jones.*

MATHEMATICS—Algebra, *Peck;* Plane Geometry, *Bradbury.*

SOPHOMORE CLASS.

GREEK—Xenophon's Anabasis, Three Books, *Boise;* Xenophon's Memoralbila, *Winans;* Homer's Odyssey, *Merry.*

LATIN—Livy, History, *Chase* and *Stuart;* Tacitus, Germany and Agricola, *Greenough;* Horace, Odes, *Chase* and *Stuart.*

MATHEMATICS.—Solid and Spherical Geometry, *Bradbury;* Trigonometry and Surveying, *Bradbury.*

ENGLISH—Literature, Rhetoric, *Kellogg.*

JUNIOR CLASS.

GREEK—Olynthiacs and Philippics of Demosthenes, *Tyler;* Testament; Gorgias of Plato, *Woolsey.*

LATIN—Cicero, Tusculan Disputations, *Chase* and *Stuart.*

SCIENCE—Natural Philosophy, *Peck's Ganot;* Astronomy, *Lockyer;* Chemistry, *Steele;* Geology, *Dana.*

SENIOR CLASS.

MENTAL PHILOSOPHY—*Haven.*

LOGIC—*Jevons.*

POLITICAL ECONOMY—*Wayland.*

MORAL PHILOSOPHY—*Fairchild.*

EVIDENCES OF CHRISTIANITY—*Hopkins.*

HISTORY—History of Civilization, *Guizot.*

NATURAL THEOLOGY—*Chadbourne.*

GERMAN, OR CIVIL LIBERTY AND LECTURES ON ART.

COLLEGE PREPARATORY COURSE.

For admission to this course, a thorough examination must be passed in Spelling, Geography, United States History, Grammar, and Arithmetic as far as Square Root.

JUNIOR CLASS.

English—Grammar and Composition.
Mathematics—Elementary Algebra, *Loomis*
Latin—Allen's New Latin Method.
Physical Geography—Commercial Geography.
Good Morals and Gentle Manners, *Gow.*
Reading, Drawing, Music.

MIDDLE CLASS.

English—Seven British Classics, or equivalent.
Mathematics—Arithmetic (one term); Bookkeeping.
Science—Physiology (one term); Botany.
Latin—Grammar. *Allen* and *Greenough;* Cæsar, Gallic War, *Allen* and *Greenough;* Cicero, Orations, *Allen* and *Greenough.*
School Economy and Primary Methods.
Drawing, Music.

SENIOR CLASS.

History—General, *Swinton.*
English—Literature, *Gilman.*
Mathematics—Plane Geometry, *Bradbury.*
Science—Physics, Temperance.
Latin—Cicero, Orations, *Allen* and *Greenough;* Vergil, Aeneid, *Allen* and *Greenough;* Latin Prose Composition, *Jones.*

NORMAL COURSE.

(Formerly Higher Normal Course.)

The requirements for admission to this course are the same as for the College Preparatory Course.

A certificate of graduation will be given to those who complete this course.

JUNIOR CLASS.

English—Grammar and Composition.
Mathematics—Elementary Algebra, *Loomis.*
Latin—Allen's New Latin Method.
Physical Geography, Commercial Geography.
Good Morals and Gentle Manners, *Gow.*
Reading, Drawing, Music.

JUNIOR MIDDLE CLASS.

English—Seven British Classics, or equivalent.
Mathematics—Arithmetic, Bookkeeping.
Science—Physiology, Botany.
School Economy and Primary Methods.
Drawing, Music.

SENIOR MIDDLE CLASS.

ENGLISH—Literature, *Gilman.*
MATHEMATICS—Plane Geometry, *Bradburry.*
SCIENCE—Physics, Temperance.
HISTORY- General, *Swinton;* New Testament, *Smith.*
DRAWING, MUSIC, PRACTICE TEACHING.

SENIOR CLASS.

MORAL PHILOSPHY—*Peabody.*
MENTAL PHILOSOPHY—*Rivers.*
ASTRONOMY—*Lockyer.*
GEOLOGY—*Dana.*
UNITED STATES HISTORY.
CIVIL GOVERNMENT, *Alden.*
PEDAGOGICS, PRACTICE TEACHING.
REVIEWS OF COMMON BRANCHES.

GRAMMAR SCHOOL.

Although the following course of study covers eight years, there is no class in this school below the fourth year.

FIRST YEAR.

Reading Charts, First Reader, Number Lessons, Object Lessons (Place, Direction, Plants), Drawing, Writing with pencils, Singing.

SECOND YEAR.

Second Reader, Oral Spelling, Number Lessons, Object Lessons (Animals, Land and Water), Drawing, Writing with pencils, Singing.

THIRD YEAR.

Third Reader begun, Primary Arithmetic, Geography of city or county and state, Globe Lessons, Dictation Exercises, Copy Book No. 1, Spelling, Singing.

FOURTH YEAR.
(Fifth Grade.)

Third Reader and Supplementary Reading, Intermediate Arithmetic through Fractions, Primary Geography (text-book), Language Lessons (Knox or Powell), Written Spelling, Copy-Books Nos. 2 and 3, Music.

FIFTH YEAR.
(Fourth Grade.)

Fourth Reader begun, Intermediate Arithmetic completed, Larger Geography begun (U. S. and N. A.), Language Lessons, Spelling, Copy-Books Nos. 3 and 4, Music.

SIXTH YEAR.
(Third Grade.)

Fourth Reader, Practical Arithmetic through Fractions, Geography of S. A. and Europe, Elementary Grammar (Reed and Kellogg), Familiar Science, Writing, Music

SEVENTH YEAR.
(Second Grade.)

Fifth Reader, Practical Arithmetic through Percentage, Mental Arithmetic, Grammar, Geography completed, Music.

EIGHTH YEAR.
(First Grade.)

Reading, Practical Arithmetic completed, Grammar and Composition, U. S. History, Alcohol and Hygenie (Coleman), Music.

Weekly Bible Lessons throughout the course.

Written examinations are required in the studies of all the courses at the close of the Fall and Winter Terms, and oral examinations annually during the three days preceding Commencement; also written examinations are required frequently in common English branches, from all students above the Grammar School.

CALENDAR.

ANNIVERSARY EXERCISES, June 9, 10, 11, and 12, 1884.

ANNUAL MEETING OF THE ALUMNI, June 12, 1884.

EXAMINATION FOR ADMISSION, October 1, 1884.

FALL TERM begins Wednesday, October 1, 1884.

VACATION DAYS, Christmas and New Years.

WINTER TERM begins, Friday, January 2, 1885.

VACATION, the last week in March, 1885.

SUMMER TERM begins, Monday, March 30, 1885.

ANNIVERSARY EXERCISES, June 15, 16, 17, 18, 1885.

COMMENCEMENT DAY, Thursday, June 18, 1885.

GENERAL INFORMATION.

MEMBERSHIP.

For membership in the Institution a person must have a good moral character, and must sign a pledge to abstain from the use of all intoxicating drinks and tobacco in every form, while a member of the school.

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has had a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained.

Pupils from other schools must present certificates of honorable dismission.

Applications for admission should be made at least a month before the beginning of the school year.

Pupils should enter the first day of the school year, that they may be immediately classified, and thus lose no time.

Any who cannot be here the first day, should so time their coming as to get here on Wednesday, as Thursday will be the day for examination for admission.

Students lose their membership when absent one month. During vacation, as well as during term time, students are held amenable to the authority of the school.

Those who have not a fixed purpose to improve their time, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

EXPENSES.

Board, including furnished rooms, fuel, lights, and washing, per month		$10 00
Tuition, in College Course	"	2 00
Tuition in all other Courses	"	1 00
Instruction in Instrumental Music	"	1 00
Use of Instrument one hour per day	"	1 00

All payments must be made in advance on the first day of each mont h

All pupils are required to work for the Institution at least one hour a day. This requirement makes the above low charges possible.

Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money-orders and drafts payable, during 1884–85, to H. Bumstead, and address all moneys to him. Receipts will be promptly returned.

STUDENT AID.

Some students have been aided during the past years by contribution from the friends of popular education. It is expected that this help will be continued.

The income of the King, the Cassedy, the Dodge, the Hastings, and the Plainfield Scholarship Funds, is now available.

Persons should not come expecting to receive aid until they have applied for it, and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow.

It is expected that those who are aided will, when able, return the amount to aid others.

TEACHING IN VACATION.

Nearly all of those who are sufficiently advanced in scholarship, aid themselves by teaching. The demand for teachers is usually in excess of the supply.

County Superintendents of Schools, and others desiring teachers from this Institution, will find it for their interest to arrange their schools, if possible, so as to include its summer vacation, viz: the months of July and August and September. Communications from all such officers will receive prompt attention.

Students of this Institution, desiring to teach, will be furnished certificates of membership and standing. As a means of protection against imposition, applicants for schools claiming to be from Atlanta University should be required to exhibit such certificates.

It is expected that a majority of the students will engage in teaching, and instruction in all departments is adapted to that end. Earnest efforts are made to induce young men to prepare for the ministry.

What is lacking to run the institution is supplied by the American Missionary Association. The income from all sources this last year was about $37,000, of which about $2,000 remains on hand. Of this, $5,000, however, was a part of the corpus of a $10,000 fund. The $8,000 from the State is used exclusively to pay teachers. The committee examined the disbursements and found that the very highest economy and honesty has marked the administration. The college is a model in this respect as in every other. The officers are evidently endeavoring to make the money go as far as they can, consistently with efficiency.

There are three hundred and ten students in the University. The State of Georgia as a consideration for her appropriation, gives to every member of the legislature the right of nominating one

under charge of an old and worthy matron. The buildings are kept in perfect neatness and order Attention to religious devotions and observances is required. Sports are allowed, but kept within decorum. I have taken special pains to look closely into everything connected with the institution, and I have found nothing to censure and everything to commend. At the close of the examinations and the survey of the various buildings and results, the pupils met in the chapel and had singing and calisthenics, with the dumb bells by the male students. The members of the committee made earnest talks, in response to a call of President Ware. They gave their impressions of the school and some advice. As I stepped down I was surprised when one of the teachers handed me a very clever pencil sketch of myself, done [illegible] off-hand in the half

THE ATLANTA COLORED UNIVERSITY.

Atlanta Cor. Augusta Chronicle and Constitutionallist.

I will endeavor to give your readers some idea of the Atlanta University—the college for colored people in Atlanta, to which the State appropriates $8,000 yearly. The sub-committee of the board of visitors, Mr. G. A. Nunnally, T. P. Cleveland and I. W. Avery, have devoted three days of close attention to the workings of the institution. Col. Avery was selected to write the report, which will be incorporated in the report of the board. This college was started after the war. It consists of three large buildings, one for the males, one for the females, and what is called the Stone Hall, a very handsome and imposing structure 114 feet long by 52 feet deep, with a rear extension 50x60 feet, the whole four stories high, in which the

edge of what they had studied. The committee were invited to put questions without limit and often did do so, with the unvarying result of correct answers. There was a class of twenty youths and fifteen girls under Miss Ware's tuition in Latin lessons that without an exception read and parsed in Cæsar. A class of several boys and one girl read in Tacitus and in Zenophon—Latin and Greek, translating and construeing with entire accuracy and promptness. It was marvelous to the committee. And there seemed no difference in the grades of color—the lightest mulatto with the largest infusion of white blood not surpassing the purest blooded blacks in any element of intelligent and correct scholarship. There was a large predominance of light-colored pupils among the females, but mulattos and blacks seemed equally divided among the males. The truth is that this University is a conclusive proof of the capacity of the colored people for advanced intellectual development. Not only were the oral examinations good, but the written examinations were admirable, written with nice penmanship, in correct style, well spelled

Discipline is administered [illegible] to induce a high moral sentiment which shall be in itself a powerful governing force in the school.

THE ATLANTA COLORED UNIVERSITY.

Atlanta Cor. Augusta Chronicle and Constitutionallist.

I will endeavor to give your readers some idea of the Atlanta University—the college for colored people in Atlanta, to which the State appropriates $8,000 yearly. The sub-committee of the board of visitors, Mr. G. A. Nuuually, T. P. Cleveland and I. W. Avery, have devoted three days of close attention to the workings of the institution. Col. Avery was selected to write the report, which will be incorporated in the report of the board. This college was started after the war. It consists of three large buildings, one for the males, one for the females, and what is called the Stone Hall, a very handsome and imposing structure 114 feet long by 52 feet deep, with a rear extension 50x60 feet, the whole four stories high, in which the offices, chapel and college and dining rooms are located. The two first buildings were mainly constructed by funds furnished by the Freedman's Bureau, and cost $50,000. The Stone Hall was built with money donated Georgia by a wealthy Northern lady, Mrs. Valeria Stone, of Malden, Mass, who gave $50,000 for their University and who has generously furnished over a million of dollars to colored education South and North. This Stone Hall is a marvel of architectural finish convenience and economy. President Ware and Prof. Chase thought up the plan and built the structure. Mr. Ware gives the main credit to Prof. Chase. Remarkably enough in these degenerate days, this building was economically built It cost only $32,000, and the rest of the $50.000 was put on other improvements, mainly to adding a wing to the girls' building. Mr. Norman, the architect, gave gratuitous aid in the matter. In 1869 the first building was put up, which has rooms now for ninety girls. In 1870 the boys' building was erected, which has rooms for 100 pupils. A barn has been erected in which the carpenter rooms are located for the present. The management has some $7,000 on hand, which will be used this summer in the erection of an industrial building.

The University is vested in a board of fifteen trustees, consisting of E A Ware, Rev C W Francis, C H Morgan, T M Chase, A E Buck, Gen J R Lewis, Judge H K McKay, W C Morrill, and Samuel M. Inman, of Atlanta; Rev Wm J White, of Augusta; Rev S E Lathrop, of Macon; Rev J E Smith, of Chattanooga; Rev W H Wilcox, of Malden, Mass., and Rev M E Strieby, of New York city. The officers are Edmund A Ware, President; C W Francis, Secretary, and H Buinstead, Treasurer. There are seventeen teachers and three matrons—twenty altogether. The professors get $1,400 a year and feed themselves. The female teachers get $300 a year and board The income of the institution comes from various sources.

What is lacking to run the institution is supplied by the American Missionary Association. The income from all sources this last year was about $37,00 , of which about $2,000 remains on hand. Of this, $5,000, however, was a part of the corpus of a $10,000 fund. The $8,000 from the State is used exclusively to pay teachers. The committee examined the disbursements and found that the very highest economy and honesty has marked the administration. The college is a model in this respect as in every other. The officers are evidently endeavoring to make the money go as far as they can, consistently with efficiency.

There are three hundred and ten students in the University. The State of Georgia as a consideration for her appropriation, gives to every member of the legislature the right of nominating one student, who shall be educated free of charge for tuition. The education is both literary and practical. The pupils are taught every branch of education to the highest, and in addition the men are learned farming and gardening and carpenter work, and the females sewing and cooking. And all are taught who desire to teach. Each pupil devotes an hour a day to these practical matters. And the proficiency in all is remarkable. I have been amazed. The scholarship of this large mass of students, young and grown, mulatto and black, male and female, of all ages and shades from 12 to 25 has been simply wonderful. The capacity of this race for intellectual culture is here irresistibly demonstrated. Large classes in all the elementary branches, reading, geography, grammar, arithmetic, classes in Latin, Greek, geometry, algebra, physics, botany, science of government, history, Lieber's civil liberty, have shown a uniform, thorough finished knowledge of these matters, standing close off hand examination, and under rigid questioning displaying full knowledge of what they had studied. The committee were invited to put questions without limit and often did do so, with the unvarying result of correct answers. There was a class of twenty youths and fifteen girls under Miss Ware's tuition in Latin lessons that without an exception read and parsed in Cæsar. A class of several boys and one girl read in Tacitus and in Zenophon—Latin and Greek, translating and construeing with entire accuracy and promptness. It was marvelous to the committee. And there seemed no difference in the grades of color—the lightest mulatto with the largest infusion of white blood not surpassing the purest blooded blacks in any element of intelligent and correct scholarship. There was a large predominance of light-colored pupils among the females, but mulattos and blacks seemed equally divided among the males. The truth is that this University is a conclusive proof of the capacity of the colored people for advanced intellectual development. Not only were the oral examinations good, but the written examinations were admirable, written with nice penmanship, in correct style, well spelled and well expressed. The drawing of maps was finished.

THE FARM DEPARTMENT.

The farm department is under Mr. H. M Sessions and is well conducted. The students work one hour every day Mr. Sessions has every kind of grass and forage growing. The boys have competition plats of vegetables and are allowed all the fertilizer they desire to use. A specialty of grain and hay raising is made. The boys do all the farm work. There were twelve acres on which were raised vegetables, corn, fodder, millet, Irish and sweet potatoes, cow peas, sorghum, oats, ivory corn, doura, rice corn, strawberries, etc. Mr. Sessions has a silk experiment going on. The specimens of garden and farm products raised are varied and excellent. The boys are taught budding and grafting, saving manure, attending to the cows, cultivation of fruit, drainage, irrigation, and all the other practical mattors of farming.

THE CARPENTER DEPARTMENT.

is under the charge of Mr. Tucker, an excellent person. There are 17 complete sets of carpenter tools and the boys are taught all the processes of carpentry. We saw specimens of their labor beginning with the simplest use of tools and running up to nice work, and some of it was very creditable The housekeeping department is in a special cottage, under the supervision of Miss Emma C. Whitbeck, a very pleasant and attractive young lady, who has spent seven years in Japan in missionary work. The graduating girls spend the last year with her and learn every detail of practical housewifery, including cooking everything. The table set before the committee, work of these girls, included bread, meat, pickles, jelly, cake, pies, custard and coffee. They were all excellent and enjoyed as good cooking alone is relished.

OTHER ITEMS.

These practical matters awakened a profound interest as the most valuable part of the education. The discipline of the college is firm, kind, careful, Christian. The intercourse of the sexes is guarded vigilantly. The males and females are entirely separated in their sleeping arrangements. They eat and recite together. Every department is under charge of an old and worthy matron. The buildings are kept in perfect neatness and order Attention to religious devotions and observances is required. Sports are allowed, but kept within decorum. I have taken special pains to look closely into everything connected with the institution, and I have found nothing to censure and everything to commend. At the close of the examinations and the survey of the various buildings and results, the pupils met in the chapel and had singing and calisthenics, with the dumb bells by the male students. The members of the committee made earnest talks, in response to a call of President Ware. They gave their impressions of the school and some advice. As I stepped down I was surprised when one of the teachers handed me a very clever pencil sketch of myself, done by one of the boys, off-hand, in the half hour while we were on the platform. I have endeavored to represent everything correctly. I have been profoundly surprised and I have no doubt that those who read my statements will be as much astonished as I have been at the facts. There are 159 boys and 181 girls at this institution; 151 boarders; and 119 day pupils. There are students from sixty-one counties of Georgia and nine other States. There are 20 in the college course, 15 preparatory, 201 grammar school and 74 in the normal school preparing to be teachers. There are five from Augusta—W. H Johnson, a graduate, Susie E. Carter, Rosa E. Lawson and J. B Arterberry, normal students, and Stella B. Jordan, in the preparatory. There is much more of interest that I might write Nothing impressed me more than the spectacle of a genuine black son of Africa, child of hereditary slavery or of the barbarous wild, mastering Greek, the language of the oldest and most refined civilization of antiquity.

RICHMOND.

GRAVES LIBRARY.

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains over six thousand volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, which insures its steady growth.

In connection with the Library is a Reading Room, well supplied with the leading papers and periodicals of the country, and the students have free access to both .

APPARATUS.

A good beginning has been made in procuring Philosophical Apparatus Enough has been obtained for illustrating some of the simpler principles of Natural Science, and also instruments for Surveying and Engineering purposes.

An excellent telescope and microscope have been secured, largely by the gift of friends.

MUSIC.

Facilities for instruction in both Vocal and Instrumental Music are ample. The elements of Vocal Music are taught without extra charge, by the Tonic Sol-fa Method.

For practice in Instrumental Music, there are four organs and two pianos. (See expenses.)

INDUSTRIAL TRAINING.

The girls are taught various branches of household science, such as plain sewing, cooking, and nursing the sick.

The boys are taught some of the principles of farming and gardening by an experienced farmer connected with the Institution.

The boys of the College, College Preparatory, and Normal Departments, are also taught the use of carpenters' tools by an experienced instructor.

GOVERNMENT.

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a "fixed purpose to improve his time, and an earnest desire to fit himself for usefulness," parents will be requested to take him home

Suspension from school is resorted to when other means of correction fail.

When students are exposing themselves to permanent harm, it is expected that high-minded individuals will be governed by the dictates of conscience and common-sense, rather than by any false sense of honor, in regard to disclosing the facts to the proper authority.

MISCELLANEOUS SUGGESTIONS.

Each pupil should bring a Bible. It is needed for private reading, for the Sunday-school, and for the weekly Bible lesson.

It is well to bring the text books formerly used.

All should be provided with *warm* clothing.

Young women must have *rubbers* and *waterproofs.*

Economy and good taste demand plain and simple clothing. Parents are urged to co-operate with teachers in seeing that none other is worn.

Parents will do well not to send clothing unless the request for it is endorsed by the Matron. No extra dress is required for the close of school.

Experience has taught that much evil comes from pupils receiving food or large quantities of fruit or candy from home. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed to Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, except by special permission.

Boarders are expected to furnish their own towels.

Keeping or using fire arms on the premises is forbidden.

During term-time, students shall not, without permission, actively participate in any political or mass meeting.

Students from a distance should arrange their journeys so as not to arrive on the Sabbath, as they will not be admitted on that day. When going away, they should apply for dismission in season to arrive at home before the Sabbath.

Students are not allowed to make visits on the Sabbath, and their friends are earnestly requested not to call upon them on that day.

The Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Among the appropriate means for secur-

ing such results, the Sabbath, with its religious services, is most important. The excitement of visiting friends prevents, in a great measure, the benefit that may be derived from a proper observance of the day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral, and religious culture, receive careful attention.

BUILDINGS.

The buildings are situated on high ground in the western part of the city, and are surrounded by about sixty acres of land belonging to the Institution.

DORMITORIES.—During the summer of 1869 a plain, four storied, brick building was erected, containing sleeping-rooms for about forty pupils, and also a parlor, dining room, kitchen, etc. It was designed for a girls' dormitory, but, during the first year, furnished all accommodations, both school and boarding, for boys and girls. In August of 1870, another building of the same style, but larger, containing sleeping-rooms for about sixty boys, besides temporary school-rooms, was completed. In the summer of 1871 this building was enlarged by a wing, providing rooms for about forty additional pupils, and other school-rooms. In the summer of 1880, a portion of the gift of Mrs. Stone, of Malden, Mass., was used in erecting a wing to the first named building. This wing provides for fifty additional pupils, and has a large study hall.

STONE HALL.—This building stands between the two dormitories, and is the gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel and library; the school-room, recitation and lecture rooms for the more advanced students; the philosophical and chemical laboratory; offices, etc. This building and the two dormitories are heated by steam from one large engine.

THE COTTAGE.—By the generosity of Prof. Chase, the school has had the use of a cottage, in which, under the charge of a matron, the girls of the graduating class have lived and learned housekeeping by practice.

THE BARN.—A barn forty by sixty feet with cellar the same size, furnishes facilities for the development of the farm work of the Institution.

PROJECTED BUILDINGS.—Funds amounting to between six and seven thousand dollars have been pledged from several sources for the

erection and equipment of an industrial building which is to be furnished with power, and is expected to be ready for use in the autumn. It is hoped that other friends will furnish money for a permanent Cottage for the Housekeeping School, and also for a building for the Grammar School, thus giving it greater advantages as a practice school for the Normal Department.

FUNDS.

The school being almost entirely without endowments, is dependent upon the American Missionary Association for all support not derived from other sources.

The Legislature of Georgia, in 1870, appropriated to this school $8,000. The same amount was received in 1871 and in 1873. In 1874 a bill was almost unanimously passed making an annual appropriation of $8,000. The bill was entitled "An act equitably to adjust the claims of the colored people to a share of the Agricultural Land Scrip." It made the appropriation on condition that the Board of Visitors of the University of Georgia should also visit this school; that the money should not be paid by the Governor till a commission of three members of the Faculty of the University of Georgia had approved the plan of the Trustees for the expenditure of the money, and that the school should educate, free of charge for tuition, one pupil for every member of the House of Representatives, to be nominated by the members. The Constitutional Convention of 1877 recognized the constitutionality of such legislation.

Mr. Tuthill King, of Chicago, has founded the King Scholarship Fund of five thousand dollars.

Mr. J. H. Cassedy, of New York, has founded the Cassedy Scholarship Fund of five thousand dollars.

The late Hon. Wm. E. Dodge, by his will, has founded the Dodge Scholarship Fund, of five thousand dollars.

A friend has founded the Hastings Scholarship Fund of one thousand dollars.

The Plainfield Scholarship Fund consists of three hundred dollars, and the Garfield Scholarship Fund, now being raised, has reached the sum of $338.

WANTS.

Our most pressing needs at present are the following:

Donations for Student aid.

Donations for increased current expenses incident to the enlargement and improvement of our work.

Donations for additional buildings.

Endowment of professors' chairs.

An endowment of at least one hundred thousand dollars for current expenses.

It is hoped that the time is not far distant when funds will flow into the treasury of this Institution as freely as they do into colleges in other parts of the country.

THE WORK OF OUR PUPILS.

Nearly all the graduates and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the three months of the summer vacation, a large number of students engage in teaching, and it is estimated that over ten thousand children in Georgia are taught, annually, by those who have been connected with this Institution.

REPORT OF THE BOARD OF EXAMINERS.

ATLANTA, June 15, 1883.

To the Board of Visitors, Etc.:

The undersigned special committee appointed by you to attend the examinations of the Atlanta University, colored, beg leave to report:

We have discharged the duty assigned us, and are much pleased with the results of our investigation."

The corps of teachers in the several departments seem to be thoroughly competent and efficient, and their methods of instruction systematic, accurate and thorough. Mr. Ware, the affable and courteous gentleman at the head of the institution, seems every way qualified for the high and responsible position which he holds, a position of great delicacy, requiring tact, address and common sense for the proper discharge of its duties.

The discipline appears kind but firm, and we feel that we cannot too highly commend the perfect order, neatness and system which pervade the entire institution.

We confess to some degree of surprise and gratification at the proficiency exhibited by many of the pupils in every department of study in which they were examined before us. This was particularly true in relation to those studies which pertain to the higher culture. The readiness, ease and accuracy with which they read the most difficult Latin and Greek authors, and solved abstruse problems in the higher mathematics, should remove, perhaps, the skepticism of those who doubt their ability, to receive a high degree of intellectual culture. It was clear to us that the pupils before

us had acquired a very accurate knowledge of the various branches of learning which they had pursued. The original speeches and essays of the graduating class exhibited a maturity of thought, and an elegance and ease of expression which would have been creditable in any institution.

A very interesting feature of the institution is the department of domestic instruction, in which the females are taught to cook and trained in the various arts of domestic economy.

There is also an industrial department, in which the males are instructed in the arts of agriculture and horticulture, and stimulated to effort by the offer of premiums to the most successful.

It is also contemplated by the instructors to establish and to put into practical operation, at an early day, a department in which shall be taught the mechanic arts to such as may desire it. Many of the tools to be used in this department have already been contributed It seems to be the policy of the institution, to encourage the pupils to seek instruction in these various industrial departments, and to impress upon them the idea that honest toil is highly commendable, and that manual labor is not derogatory to the character of an educated man or woman.

There is also a department of normal instruction, in which those desiring to become teachers, are trained in the best and most approved methods of teaching. A majority of the females, and quite a number of the males of the present senior class have received instruction in this school. Most of them will, perhaps, engage in teaching public schools of the colored people, and will greatly improve the character of the instruction now given in those schools.

A course of scientific instruction seems not yet to have been embraced in their curriculum of study, as they have no chemical or philosophical apparatus. [See page, 23.] Their library, though not large, is well selected and appears to be sufficient for their present wants.

The buildings are ample and well adapted to the purposes for which they were designed. The main building is a model of architecture in its various and well ordered arrangements, in its thorough adaptation to all the wants of the Institution, and, what specially recommends it, in the economy of its construction.

The committee indulge the hope that the Institution is accomplishing good, and commend it to favorable regard. We think the usual appropriation by the State should be made. Respectfully submitted,

MARK JOHNSTON,
THOMAS P. CLEVELAND,
J. G. RYALS,
Committee.

The above report was submitted to the Board of Visitors at their session in Atlanta, and approved by them. THOMAS G. POND, Chairman.
June 15, 1883.

Dec & R. 2082/83

GARFIELD SCHOLARSHIP

The Garfield Scholarship of one thousand dollars, is being raised in the South. The amount already received has come chiefly from the "Weekly Offerings" at the University, from former pupils, and from schools under the instruction of present and former pupils.

The following amounts have been received up to June 3, 1884:

Previously acknowledged	$251 63
NORTH CAROLINA.	
Hillsboro, M Blanche Curtiss	50
GEORGIA.	
Atlanta, Teachers and Students of Atlanta University	67 95
Atlanta, Florence and Alice Newman	2 00
Albany, Miss Della Hunt's School	2 10
Americus, G. W. F. Phillips	2 50
Calhoun county, Miss Janie A. Brown's School	1 00
Hawkinsville, Paul C. Coley	5 00
Hawkinsville, School of Paul C. Coley and Annie B. Thomas	2 50

COURSES OF STUDY.

THE FOLLOWING COURSES OF STUDY ARE NOW ESTABLISHED, AND OTHERS WILL BE ADDED AS MAY BE REQUIRED.

COLLEGE COURSE.

For admission to this course, pupils must pass a thorough examination in the common English branches, and also in the studies of the Preparatory Course or their equivalent.

The degree of B. A. is given to graduates from this course.

FRESHMAN CLASS.

GREEK—Grammar, *Hadley;* First Lessons, *Boise;* Xenophon's Anabasis, Three Books, *Boise.*

LATIN—Cicero, On Old Age and Friendship, *Chase* and *Stuart;* Livy, History, *Chase* and *Stuart;* Latin Prose, *Jones.*

MATHEMATICS—Algebra, *Peck;* Plane Geometry, *Bradbury.*

SOPHOMORE CLASS.

GREEK—Xenophon's Anabasis, Three Books, *Boise;* Xenophon's Memorabilia, *Winans;* Homer's Odyssey, *Merry.*

LATIN—Livy, History, *Chase* and *Stuart;* Tacitus, Germany and Agricola, *Greenough;* Horace, Odes, *Chase* and *Stuart.*

MATHEMATICS—Solid and Spherical Geometry, *Bradbury;* Trigonometry and Surveying, *Bradbury.*

ENGLISH—Literature, Rhetoric, *Kellogg.*

JUNIOR CLASS.

GREEK—Olynthiacs and Philippics of Demosthenes, *Tyler;* Testament; Gorgias of Plato, *Woolsey.*

LATIN—Cicero, Tusculan Disputations, *Chase* and *Stuart.*

SCIENCE—Natural Philosophy, *Peck's Ganot;* Astronomy, *Lockyer;* Chemistry, *Steele;* Geology, *Dana.*

SENIOR CLASS.

MENTAL PHILOSOPHY—*Haven.*

LOGIC—*Jevons.*

POLITICAL ECONOMY—*Wayland.*

MORAL PHILOSOPHY—*Fairchild.*

EVIDENCES OF CHRISTIANITY—*Hopkins.*

HISTORY—History of Civilization, *Guizot.*

NATURAL THEOLOGY—*Chadbourne.*

GERMAN, OR CIVIL LIBERTY AND LECTURES ON ART.

COLLEGE PREPARATORY COURSE.

For admission to this course, a thorough examination must be passed in Spelling, Geography, United States History, Grammar, and Aritl metic as far as Square Root.

JUNIOR CLASS.

English—Grammar and Composition.
Mathematics—Elementary Algebra, *Loomis.*
Latin—Allen's New Latin Method.
Physical Geography—Commercial Geography.
Good Morals and Gentle Manners, *Gow.*
Reading, Drawing, Music.
Wood-working (see Mechanical Course.)

MIDDLE CLASS.

English—Seven British Classics, or equivalent.
Mathematics—Arithmetic (one term); Bookkeeping.
Science—Physiology (one term); Botany.
Latin—Grammar, *Allen* and *Greenough;* Cæsar, Gallic War, *Allen* and *Greenough;* Cicero, Orations, *Allen* and *Greenough.*
School Economy and Primary Methods.
Drawing, Music, Composition.
Wood-working.

SENIOR CLASS.

History—General, *Swinton.*
English—Literature, *Gilman.*.
Mathematics—Plane Geometry, *Bradbury.*
Science—Physics, Temperance.
Latin—Cicero, Orations, *Allen* and *Greenough;* Vergil, Aeneid, *Allen* and *Greenough;* Latin Prose Composition, *Jones.*
Drawing, Music, Composition.
Metal-working.

NORMAL COURSE.

(Formerly Higher Normal Course.)

The requirements for admission to this course are the same as for the College Preparatory Course.

A certificate of graduation will be given to those who complete this course.

JUNIOR CLASS.

English—Grammar and Composition.
Mathematics—Elementary Algebra, *Loomis.*
Latin—Allen's New Latin Method.
Physical Geography, Commercial Geography.
Good Morals and Gentle Manners, *Gow.*
Reading, Drawing, Music.
Wood-working for Boys; Sewing and Cooking for Girls.

JUNIOR MIDDLE CLASS.

English—Seven British Classics, or equivalent.
Mathematics—Arithmetic, Book-keeping.
Science—Physiology, Botany.
School Economy and Primary Methods.
Drawing, Music, Composition.
Wood-working for Boys; Sewing and Cooking for Girls.

SENIOR MIDDLE CLASS.

English—Literature, *Gilman.*
Mathematics—Plane Geometry, *Bradbury.*
Science—Physics, Temperance.
History—General, *Swinton;* New Testament, *Smith.*
Drawing, Music, Composition. Practice Teaching.
Metal-working for Boys: Dressmaking and Cooking for Girls.

SENIOR CLASS.

Moral Philosophy—*Peabody.*
Mental Philosophy—*Rivers.*
Astronomy—*Lockyer.*
Geology—*Dana.*
United States History.
Civil Government, *Alden.*
Pedagogics, Practice Teaching.
Reviews of Common Branches.
General Housekeeping for Girls.

MECHANICAL COURSE.

At present this course covers three years, two of wood-working and one of metal-working. It is required of all boys above the Grammar School, in addition to their regular studies in other courses. Seven and a half hours each week are given to this work.

It is the aim, during this time, to teach the use of tools and the principles of wood-working and metal-working. Those having finished this course who have the ability and the desire to become finished workmen in some one of the trades, will have the opportunity to do so.

FIRST YEAR.

The use and care of the common wood-working tools, as the hammer, saw, plane, try-square, gauge, rule, chisel, mallet, bit and brace, bevel, steel-square, draw-knife, dividers, screw-driver.

The general principles of wood-working, as sawing, planing, marking, chamfering, boring, mortising, tenoning, halving, grooving, matching, mitering, beveling, dovetailing, gluing, driving nails and screws, sandpapering, finishing.

Working drawings with steel-square and pencil.

SECOND YEAR.

Further use of tools and some application of principles in construction.

The use of wood-turning lathe and the jig saw.

First steps in pattern making.
Glazing.
Drawing with instruments.
Measuring lumber and estimating for buildings.

THIRD YEAR.

Metal-working, beginning with the use of blacksmith's tools and forge.

GRAMMAR SCHOOL COURSE.

Although the following course of study covers eight years, there is no class in this school below the fourth year.

FIRST YEAR.

Reading Charts, First Reader, Number Lessons, Object Lessons (Place, Direction, Plants), Drawing, Writing with pencils, Singing.

SECOND YEAR.

Second Reader, Oral Spelling, Number Lessons, Object Lessons (Animals, Land and Water), Drawing, Writing with pencils, Singing.

THIRD YEAR.

Third Reader begun, Primary Arithmetic, Geography of city or county and state, Globe Lessons, Dictation Exercises, Copy Book No. 1, Spelling, Singing.

FOURTH YEAR.
(Fifth Grade.)

Third Reader and Supplementary Reading, Intermediate Arithmetic through Fractions, Primary Geography (text-book), Language Lessons (Knox or Powell), Written Spelling, Copy-Books Nos. 2 and 3, Music.

FIFTH YEAR.
(Fourth Grade.)

Fourth Reader begun, Intermediate Arithmetic completed, Larger Geography begun, (U. S. and N. A.), Language Lessons, Spelling, Copy-Books Nos. 3 and 4, Music.

SIXTH YEAR.
(Third Grade.)

Fourth Reader, Practical Arithmetic through Fractions, Geography of S. A. and Europe, Elementary Grammar (Reed and Kellogg), Familiar Science, Writing, Music.

SEVENTH YEAR.
(Second Grade.)

Fifth Reader, Practical Arithmetic through Percentage, Mental Arithmetic, Grammar, Geography completed, Music.

EIGHTH YEAR.
(First Grade.)

Reading, Practical Arithmetic completed, Grammar and Composition, U. S. History, Alcohol and Hygiene (Coleman), Music.

Weekly Bible Lessons and Composition Work throughout the course.

Written examinations are required in the studies of all the courses at the close of the Fall and Winter Terms, and oral examinations annually during the three days preceding Commencement; also written examinations are required frequently in common English branches, from all students above the Grammar School Course.

GENERAL INFORMATION.

CALENDAR.

Anniversary Exercises, June 14, 15, 16, 17, and 18, 1885.

Examination for Admission, September 30, 1885.

Fall Term begins Wednesday, September 30, 1885.

Vacation Days, Christmas and New Years.

Winter Term begins, Monday, January 4, 1886.

Vacation, the last week in March, 1886.

Summer Term begins, Monday, April 5, 1886.

Baccalaureate Sermon, Sunday, June 6, 1886.

Public Examinations, June 7, 8, and 9, 1886.

Annual Meeting of the Trustees, June 9, 1886.

Commencement Day, Thursday, June 11, 1886.

Annual Meeting of the Alumni, June 11, 1886.

MEMBERSHIP.

For membership in the Institution a person must have a good moral character, and must sign a pledge to abstain from the use ef all intoxicating drinks and tobacco in every form, while a member of the school.

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has had a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained.

Pupils from other schools must present certificates of honorable dismission.

Applications for admission should be made at least a month before the beginning of the school year.

Pupils should enter the first day of the school year, that they may be immediately classified, and thus lose no time.

Any who cannot be here the first day, should so time their coming as to get here on Wednesday, as Thursday will be the day for examination for admission.

Students lose their membership when absent one month. During vacation, as well as during term time, students are held amenable to the authority of the school.

Those who have not a fixed purpose to improve their time, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

EXPENSES.

Board, including furnished rooms, fuel, lights, and washing, per month		$10 00
Tuition in College Course	"	2 00
Tuition in all other Courses	"	1 00
Instruction in Instrumental Music	"	1 00
Use of Instrument one hour per day	"	1 00

All payments are due in advance on the first day of each calendar month. Fractions of a month are charged at a somewhat higher rate.

All pupils are required to work for the Institution at least one hour a day. This requirement makes the above low charges possible.

Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money-orders and drafts payable, during 1885-86, to H. Bumstead, and address all moneys to him. Receipts will be promptly returned.

STUDENT AID.

Some students have been aided during the past years by contributions from the friends of popular education. It is expected that this help will be continued.

The income of the King, the Cassedy, the Dodge, the Hastings, and the Plainfield Scholarship Funds, is now available.

Persons should not come expecting to receive aid until they have applied for it, and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow.

It is expected that those who are aided, will, when able, return the amount to aid others.

TEACHING IN VACATION.

Nearly all of those who are sufficiently advanced in scholarship, aid themselves by teaching. The demand for teachers is usually in excess of the supply.

County Superintendents of Schools, and others desiring teachers from this Institution, will find it for their interest to arrange their schools, if possible, so as to include its summer vacation, viz: the months of July and August and September. Communications from all such officers will receive prompt attention.

Students of this Institution, desiring to teach, will be furnished certificates of membership and standing. As a means of protection against imposition, applicants for schools claiming to be from Atlanta University should be required to exhibit such certificates.

It is expected that a majority of the students will engage in teaching; and instruction in all departments is adapted to that end. Earnest efforts are made to induce young men to prepare for the ministry.

GRAVES LIBRARY.

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains over six thousand volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, which insures its steady growth.

In connection with the Library is a Reading Room, well supplied with the leading papers and periodicals of the country, and the students have free access to both.

APPARATUS.

A good beginning has been made in procuring Philosophical Apparatus. Enough has been obtained for illustrating some of the simpler principles of Natural Science, and also instruments for Surveying and Engineering purposes.

An excellent telescope and microscope have been secured, largely by the gift of friends.

MUSIC.

Facilities for instruction in both Vocal and Instrumental Music are ample. The elements of Vocal Music are taught without extra charge, by the Tonic Sol-fa Method.

For practice in Instrumental Music, there are four organs and two pianos. (See expenses.)

INDUSTRIAL TRAINING.

The boys of the College, College Preparatory and Normal courses, are taught the use of tools. (See Mechanical Course, p. 21, and Knowles Industrial Building, p. 28.)

The boys are also taught some of the principles of farming and gardening. Attention is given to the raising and care of stock, to the raising of fodder crops, their comparative value and fitness for this soil and climate. The cultivation of vegetables is encouraged by competition and prizes for the best results.

The girls are taught various branches of household science, such as plain sewing, dressmaking, cooking, and nursing the sick.

GOVERNMENT.

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, parents will be requested to take him home.

Suspension from school is resorted to when other means of correction fail.

When students are exposing themselves to permanent harm, it is expected that high-minded individuals will be governed by the dictates of conscience and common-sense, rather than by any false sense of honor, in regard to disclosing the facts to the proper authority.

MISCELLANEOUS SUGGESTIONS.

Each pupil should bring a Bible. It is needed for private reading, for the Sunday-school, and for the weekly Bible lesson.

It is well to bring the text books formerly used.

All should be provided with *warm* clothing.

Young women must have *rubbers* and *waterproofs.*

Economy and good taste demand plain and simple clothing. Parents are urged to co-operate with teachers in seeing that none other is worn.

Parents will do well not to send clothing unless the request for it is endorsed by the Matron. No extra dress is required for the close of school.

Experience has taught that much evil comes from pupils receiving food or large quantities of fruit or candy from home. They are, therefore not allowed to receive it. *Friends will please not send it.*

Letters should be directed to Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, except by special permission.

Boarders are expected to furnish their own towels.

Keeping or using fire arms on the premises is forbidden.

During term-time, students shall not, without permission, actively participate in any political or mass meeting.

Students from a distance should arrange their journeys so as not to arrive on the Sabbath, as they will not be admitted on that day. When going away, they should apply for dismission in season to arrive at home before the Sabbath.

Students are not allowed to make visits on the Sabbath, and their friends are earnestly requested not to call upon them on that day.

The Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Among the appropriate means for securing such results, the Sabbath, with its religious services, is most important. The excitement of visiting friends prevents, in a great measure, the benefit that may be derived from a proper observance of the day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral, and religious culture, receive careful attention.

BUILDINGS.

The buildings are situated on high ground in the western part of the city, and are surrounded by about sixty acres of land belonging to the Institution.

DORMITORIES.—During the summer of 1869 a plain four storied, brick building was erected, containing sleeping-rooms for about forty pupils, and also a parlor, dining room, kitchen, etc. It was designed for a girl's dormitory, but, during the first year, furnished all accommodations, both school and boarding, for boys and girls. In August of 1870, another building of the same style, but larger, containing sleeping-rooms for about sixty boys, besides temporary school-rooms, was completed. In the summer of 1871 this building was enlarged by a wing, providing rooms for about forty additional pupils, and other school-rooms. In the summer of 1880, a portion of the gift of Mrs. Stone, of Malden, Mass., was used in erecting a wing to the first named building. This wing provides for fifty additional pupils, and has a large study hall.

In the summer of 1884, large rooms for the accommodation of the cooking classes and for other purposes, were added to this building.

STONE HALL.—This building, erected in 1882, stands between the two dormitories, and is the gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel and library; the school-room, recitation and lecture rooms for the more advanced students; the philosophical and chemical laboratory; offices, etc. This building and the two dormitories are heated by steam from one large engine.

KNOWLES INDUSTRIAL BUILDING.—This building, erected in 1884, is for the use of the Mechanical Department. It is a memorial of the late Mr. L. J. Knowles, of Worcester, Mass., his widow having appropriated from his estate $6,000 for its erection.

The building is of brick, one hundred by forty-four feet, and three stories high. One room, forty by fifty feet, is furnished with eighteen cabinet benches, each fitted out with the following tools: Rip saw, cut-off saw, panel saw, back saw, compass saw, claw hammer, hatchet, mallet, jack plane, jointing plane, smoothing plane, block plane, four paring chisels, two mortising chisels, six bits and countersink, bit brace, rule, steel-square, try-square, bevel, dividers, gauge, draw-knife, spoke-shave, screw-driver, brad-awl, nail-set, oil stone and oil can.

At the beginning of the next school year, the rest of the building will be furnished with engine and machinery.

Other contributers toward the building and its furnishing are Mr. F. C. Sessions, of Columbus, O., $700.00; the Slater Fund, $500.00; a friend in New York, and friends in Massachusetts.

THE BARN.—A barn, erected in 1882, forty by sixty feet, with cellar the same size, furnishes facilities for the development of the farm work of the Institution.

PROJECTED BUILDINGS.—Efforts are being made to raise money for a Cottage for the Housekeeping School, and also for a building for the Grammar School, so that it may give greater advantages as a practice school for the Normal Department.

FUNDS.

The school being almost entirely without endowments, is dependent upon the American Missionary Association for all support not derived from other sources.

The Legislature of Georgia, in 1870, appropriated to this school $8,000. The same amount was received in 1871 and in 1873. In 1874 a bill was almost unanimously passed making an annual appropriation of $8,000. The bill was entitled "An act equitably to adjust the claims of the colored people to a share of the Agricultural Land Scrip." It

made the appropriation on condition that the Board of Visitors of the University of Georgia should also visit this school; that the money should not be paid by the Governor till a commission of three members of the Faculty of the University of Georgia had approved the plan of the Trustees for the expenditure of the money, and that the school should educate, free of charge for tuition, one pupil for every member of the House of Representatives, to be nominated by the members. The Constitutional Convention of 1877 recognized the constitutionality of such legislation.

The Trustees of the John F. Slater Fund have appropriated $2,000 a year, a part of which is used for aiding students.

Mr. Tuthill King, of Chicago, has founded the King Scholarship Fund of five thousand dollars.

Mr. J. H. Cassedy, of New York, has founded the Cassedy Scholarship Fund of five thousand dollars.

The late Hon. Wm. E. Dodge, of New York, has founded the Dodge Scholarship Fund of five thousand dollars.

A friend has founded the Hastings Scholarship Fund of one thousand dollars.

The Plainfield Scholarship Fund consists of three hundred dollars, and the Garfield Scholarship Fund, now being raised, has reached the sum of $389.66.

WANTS.

Our most pressing needs at present are the following:

Donations for Student aid.

Donations for increased current expenses incident to the enlargement and improvement of our work.

Donations for additional buildings.

Endowment of professors' chairs.

An endowment of at least one hundred thousand dollars for current expenses.

THE WORK OF OUR PUPILS.

Nearly all the graduates and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the three months of the summer vacation, a large number of students engage in teaching, and it is estimated that over ten thousand children in Georgia are taught, annually, by those who have been connected with this Institution.

REPORT OF THE BOARD OF EXAMINERS.

ATLANTA, GA., June 12, 1884.

To the Board of Visitors to the State and Atlanta Universities:

The undersigned, members of the general board of visitors, appointed by you to attend the examinations of the Atlanta University, colored, submit the following report:

The University is a large, flourishing and well conducted institution. It enjoys, among other revenue, an annual income from the State of Georgia of $8,000, which is used to pay teachers, and, for this, is under obligations to furnish free tuition to one pupil for every Representative in the General Assembly, to be nominated by the members. We do not find this privilege used to the extent that it should be, probably in ignorance of its existence. We would suggest that some provision be made for informing the representatives and securing a wider utilization of this privilege.

The curriculum of studies, whose examination we attended, embraced Reading, Geography, Grammar, Arithmetic, History, Languages, Temperance and Science in the Grammar School; and Science of Government, Latin, (Tacitus, De Senectute and Virgil,) Natural Resources of United States, Geometry, Botany, Physics, Methods, Elementary Algebra, Greek Lessons, Memorabilia, and Lieber's Civil Liberty, in the Normal Department and College.

There have been enrolled this past year at the institution 310 pupils, of which 201 took the Grammar School course; 74 the Normal course; 15 the Preparatory College course, and 20 the final College course. Of the whole, 159 were males, and 151 females, 191 boarders, and 119 day pupils.

The students came from sixty-one counties of Georgia and eight other States. They embraced all ages, from twelve years to maturity, and representatives from every class of our colored people.

Your committee desire to express their gratification at the uniformly creditable character of these examinations. Such scholarship as we have witnessed in so large and representative a body of the colored people has impressed us with their capacity for education, as well as for application to study. In the highest as well as the lowest branches of the curriculum, we found correct information, mastery of detail and ability to communicate clearly. Alike well posted, they seemed to be, both male and female, in such difficult branches as advanced Latin and Greek, geometry, physics, algebra and political science. The examinations were honestly made, and the committee were allowed full latitude in testing the pupils' knowledge. Nor did it seem to be a technical knowledge merely. It appeared to go to the substance of things. It was evident that the teachers had instructed faithfully and the scholars had studied zealously and learned correctly. The result was very interesting and full of good augury. It has seemed to be a favorable issue to the experiment of colored education.

While the oral examinations were thus excellent, the few written examinations were equally meritorious and uniformly good, and the papers showed, in addition to knowledge of the subjects, neat penmanship, correct grammar and accurate spelling, as well as the valuable quality of tidiness.

There are 17 teachers in the University, and their fidelity and skill are conclusively demonstrated in the harvest of their labors.

There are now some seventy graduates of this University engaged in teaching their own people, many of them principals of the colored high schools of the cities, and in the present body of students there are seventy-four proposing to teach. We

cannot but regard the normal branch of the University as one of its most valuable departments. It is sought to send out a class of colored native teachers, not only well up in scholarly qualifications, but to whose morals and views upon private public duties the greatest care has been given.

Your committee would state that there was no department of this University that struck them more favorably than the industrial education in its various forms. It was with unusual interest that these industrial departments were examined.

The farm and garden department is well run. The boys are taught actual agriculture and gardening, and practice them an hour a day. A good farmer teaches the boys how to plant every kind of produce, how to prepare the ground, to fertilize, to work the crops, and to harvest. The pupils have competitive plats of ground, and get prizes for the best results of their culture. A good feature is the test of grasses, and instruction in pruning, grafting and budding. The most of the pupils are informed on cultivating cotton and corn. This education increases and diversifies their practical knowledge.

The department of carpentry is another excellent one. It is under the management of a practical mechanic. There are seventeen sets of carpenter's tools, and the boys are taught their use. A complete set of specimens of progressive work attested their advancement in carpentry. All of the staple achievements in wood work they are taught. An hour a day is devoted to this.

Philosophical apparatus for illustrating the simpler principles of natural science, instruments for surveying and engineering purposes, telegraph battery, wires and instruments, and other scientific appliances, are in use and are skilfully employed to extend the practical acquirements of the students. Gradually the institution is widening its facilities for teaching mechanical pursuits, and we may be pardoned for expressing the decided opinion that every step in this direction will enhance the usefulness of the University, and direct its mission for the public benefit.

The housekeeping department, under a competent lady for the graduating girls, we especially liked. The specimens of cooking that we tested gave us a good opinion of her labors. We found bread, meat, pastry and cakes well cooked by the girls under her instruction. A special cottage is used for these embryo housekeepers and cooks, and they occupy it under the direction of this lady, taking turns in all the duties. The girls are also taught plain sewing.

In conclusion, recognizing the enterprise, ability and honesty with which this large and growing University is managed, and estimating it, thus conducted, not only as a credit to the cause of education and the State, and a well known object of interest and practical sympathy to philanthropists over the entire union, but as a potential instrumentality of Christian civilization for a class of our citizenship that deserve our most enlightened and thoughtful attention, your committee earnestly commend the institution to a continuance of the fostering care of the State, and the support and esteem of good people everywhere.

Respectfully submitted.

I. W. Avery,
G. W. Nunnally,
T. P. Cleveland.

GARFIELD SCHOLARSHIP.

The Garfield Scholarship of one thousand dollars, is being raised in the South. The amount already received has come chiefly from the "Weekly Offerings" at the University, from former pupils, and from schools under the instruction of present and former pupils.

The following amounts have been received up to June 12, 1885:

Previousiy acknowledged	$ 338 57
GEORGIA.	
Atlanta, Teachers and Students of Atlanta University	50 54
Eatonton, Chas. A. Catledge and school	1 00
Somerville, School children	05
TENNESSEE.	
Nashville, Paul C. Coley	30
Total	$ 390 46

CASH DONATIONS.

From June 3, 1884, to June 6, 1885.

COURSES OF STUDY.

THE FOLLOWING COURSES OF STUDY ARE NOW ESTABLISHED, AND OTHERS WILL BE ADDED AS MAY BE REQUIRED.

COLLEGE COURSE.

For admission to this course, pupils must pass a thorough examination in the common English branches, and also in the studies of the Preparatory Course or their equivalent.

The degree of B. A. is given to graduates from this course.

FRESHMAN CLASS.

GREEK—Grammar. *Hadley;* First Lessons, *Boise;* Xenophon's Anabasis, Three Books, *Boise.*

LATIN—Cicero, On Old Age and Friendship, *Chase* and *Stuart;* Livy, History, *Chase* and *Stuart;* Latin Prose, *Jones.*

MATHEMATICS—Algebra, *Peck;* Plane Geometry, *Bradbury.*

SOPHOMORE CLASS.

GREEK—Xenophon's Anabasis, Three Books, *Boise;* Xenophon's Memorabilia, *Winans;* Homer's Odyssey, *Merry.*

LATIN—Livy, History, *Chase* and *Stuart;* Tacitus, Germany and Agricola, *Greenough;* Horace, Odes, *Chase* and *Stuart.*

MATHEMATCS—Solid and Spherical Geometry, *Bradbury;* Trigonometry and Surveying, *Bradbury.*

ENGLISH—Literature, Rhetoric, *Kellogg.*

JUNIOR CLASS.

GREEK—Olynthiacs and Philippics of Demosthenes, *Tyler;* Testament; Gorgias of Plato, *Woolsey.*

LATIN—Cicero, Tusculan Disputations, *Chase* and *Stuart.*

SCIENCE—Natural Philosophy, *Peck's Ganot;* Astronomy, *Lockyer;* Chemistry, *Steele;* Geology, *Dana.*

SENIOR CLASS.

MENTAL PHILOSOPHY—*Haven.*

LOGIC—*Jevons.*

POLITICAL ECONOMY—*Wayland.*

MORAL PHILOSOPHY—*Fairchild.*

EVIDENCES OF CHRISTIANITY—*Hopkins.*

HISTORY—History of Civilization, *Guizot.*

NATURAL THEOLOGY—*Chadbourne.*

GERMAN, OR CIVIL LIBERTY AND LECTURES ON ART.

COLLEGE PREPARATORY COURSE.

For admission to this course, a thorough examination must be passed in Spelling, Geography, United States History, Grammar, and Arithmetic as far as Square Root.

JUNIOR CLASS.

English—Grammar and Composition.
Mathematics—Elementary Algebra, *Loomis.*
Latin—Allen's New Latin Method.
Physical Geography—Commercial Geography.
Good Morals and Gentle Manners, *Gow.*
Reading, Drawing, Music.
Wood-working (see Mechanical Course.)

MIDDLE CLASS.

English—Seven British Classics, or equivalent.
Mathematics—Arithmetic (one term); Bookkeeping.
Science—Physiology (one term); Botany.
Latin—Grammar, *Allen* and *Greenough;* Cæsar, Gallic War, *Allen* and *Greenough;* Cicero, Orations, *Allen* and *Greenough.*
School Economy and Primary Methods.
Drawing, Music, Composition.
Wood-working.

SENIOR CLASS.

History—General, *Swinton.*
English—Literature, *Gilman.*
Mathematics—Plane Geometry, *Bradbury.*
Science—Physics, Temperance.
Latin—Cicero. Orations, *Allen* and *Greenough;* Vergil, Aeneid, *Allen* and *Greenough;* Latin Prose Composition, *Jones.*
Drawing, Music, Composition.
Metal-working.

NORMAL COURSE.

(Formerly Higher Normal Course.)

The requirements for admission to this course are the same as for the College Preparatory Course.

A certificate of graduation is given to those who complete this course.

JUNIOR CLASS.

English—Grammar and Composition.
Mathematics—Elementary Algebra, *Loomis.*
Latin—Allen's New Latin Method.
Physical Geography, Commercial Geography.
Good Morals and Gentle Manners, *Gow.*
Reading, Drawing, Music.
Wood-working for Boys; Sewing and Cooking for Girls.

JUNIOR MIDDLE CLASS.

English—Seven British Classics, or equivalent.
Mathematics—Arithmetic, Book-keeping.
Science—Physiology, Botany.
School Economy and Primary Methods.
Drawing, Music, Composition.
Wood-working for Boys; Sewing and Cooking for Girls.

SENIOR MIDDLE CLASS.

English—Literature, *Gilman.*
Mathematics—Plane Geometry, *Bradbury.*
Science—Physics, Temperance.
History—General, *Swinton;* New Testament, *Smith.*
Drawing Music, Composition. Practice Teaching.
Metal-working for Boys; Dress-making and Cooking for Girls.

SENIOR CLASS.

Moral Philosophy—*Peabody.*
Mental Philosophy—*Rivers.*
Astronomy—*Lockyer.*
Geology—*Dana.*
United States History.
Civil Government, *Alden.*
Pedagogics, Practice Teaching.
Reviews of Common Branches.
General Housekeeping for Girls.

MECHANICAL COURSE.

At present this course covers three years; two of wood-working and one of metal-working. It is required of all boys above the third grade, in addition to their regular studies in other courses. Seven and a half hours each week are given to this work.

It is the aim, during this time, to teach the use of tools and the principles of wood working and metal working. Those having finished this course who have the ability and the desire to become finished workmen in some one of the trades, will have the opportunity to do so.

FIRST YEAR.

The use and care of the common wood working tools, as the hammer, saw, plane, trysquare, gauge, rule, chisel, mallet, bit and brace, bevel, steel square, drawknife dividers, screwdriver.

The general principles of wood working, as sawing, planing, marking, chamfering, boring, mortising, tenoning, halving, grooving, matching, mitering, beveling, dovetailing, gluing, steaming and bending, driving nails and screws, sandpapering, finishing.

Working drawings with steel square and pencil. Measuring lumber.

SECOND YEAR.

Further use of tools and some application of principles in construction.
The use of wood turning lathe and the jig saw.
First step in pattern making.
Glazing.
Drawing with instruments.

THIRD YEAR.

Metal working, beginning with the use of blacksmith's tools and forge.

GRAMMAR SCHOOL COURSE.

Although the following course of study covers eight years, there is no class in this school below the fourth year.

FIRST YEAR.

Reading Charts, First Reader, Number Lessons, Object Lessons (Place, Direction, Plants), Drawing, Writing with pencils. Singing.

SECOND YEAR.

Second Reader, Oral Spelling, Number Lessons, Object Lessons (Animals, Land and Water), Drawing, Writing with pencils, Singing.

THIRD YEAR.

Third Reader begun, Primary Arithmetic, Geography of city or county and state, Globe Lessons, Dictation Exercises, Copy Book No. 1, Spelling, Singing.

FOURTH YEAR.

(Fifth Grade.)

Third Reader and Supplementary Reading, Intermediate Arithmetic through Fractions, Primary Geography (text-book), Language Lessons (Knox or Powell), Written Spelling, Copy-Books Nos. 2 and 3, Music.

FIFTH YEAR.

(Fourth Grade.)

Fourth Reader begun, Intermediate Arithmetic completed, Larger Geography begun, (U. S. and N. A.), Language Lessons, Spelling, Copy-Books Nos. 3 and 4, Music.

SIXTH YEAR.

(Third Grade.)

Fourth Reader, Practical Arithmetic through Fractions, Geography of S. A. and Europe, Elementary Grammar (Reed and Kellogg), Familiar Science, Writing, Music.

SEVENTH YEAR.

(Second Grade.)

Fifth Reader, Practical Arithmetic through Percentage, Mental Arithmetic, Grammar, Geography completed, Music.

EIGHTH YEAR.

(First Grade.)

Reading, Practical Arithmetic completed, Grammar and Composition, U. S. History, Alcohol and Hygiene (Coleman), Music.

Instruction in sewing is given to all.

Weekly Bible Lessons and Composition Work throughout the course.

Written examinations are required in the studies of all the courses at the close of the Fall and Winter Terms, and oral examinations annually during the three days preceding Commencement; also written examinations are required frequently in common English branches, from all students above the Grammar School Course.

CALENDAR.

EXAMINATION FOR ADMISSION, October 6, 1886.

FALL TERM begins Wednesday, October 6, 1886.

VACATION DAYS, Christmas, New Years and February 22.

BACCALAUREATE SERMON, Sunday, May 22, 1887.

PUBLIC EXAMINATIONS, May 23, 24 and 25, 1887.

ANNUAL MEETING OF THE TRUSTEES, May 25, 1887.

COMMENCEMENT DAY, Thursday, May 26, 1887.

ANNUAL MEETING OF THE ALUMNI, May 26, 1887.

GENERAL INFORMATION.

MEMBERSHIP.

For membership in the Institution a person must have a good moral character, and must sign a pledge to abstain from the use of all intoxicating drinks and tobacco in every form, while a member of the school.

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has had a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained.

Pupils from other schools must present certificates of honorable dismission.

Applications for admission should be made at least a month before the beginning of the school year.

Pupils should enter the first day of the school year, that they may be immediately classified, and thus lose no time.

Any who cannot be here the first day, should so time their coming as to get here on Wednesday, as Thursday will be the day for examination for admission.

Students lose their membership when absent one month. During vacation, as well as during term time, students are held amenable to the authority of the school.

Those who have not a fixed purpose to improve their time, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

EXPENSES.

Board, including furnished rooms, fuel, lights, and washing, per month	. . .	$9 00
Tuition in College Course	" . . .	2 00
Tuition in all other Courses	" . . .	1 00
Instruction in Instrumental Music	" . . .	1 00
Use of Instrument one hour per day	" . . .	1 00

All payments are due in advance on the first day of each calendar month. Fractions of a month are charged at a somewhat higher rate.

All pupils are required to work for the Institution at least one hour a day. This requirement makes the above low charges possible.

Remittances in payment of bills should be made by money-orders, drafts, in registered letters, or by express.

Make money-orders and drafts payable, during 1886-87, to H. Bumstead, and address all moneys to him. Receipts will be promptly returned.

STUDENT AID.

Some students have been aided during the past year by contributions from the friends of popular education. It is expected that this help will be continued.

The income of the King, the Cassedy, the Dodge, the Hastings, the Boyd and the Plainfield Scholarship Funds, is now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow.

It is expected that those who are aided, will, when able, return the amount to aid others.

TEACHING IN VACATION.

Nearly all of those who are sufficiently advanced in scholarship, aid themselves by teaching. The demand for teachers is usually in excess of the supply.

County Superintendents of Schools, and others desiring teachers from this Institution, will find it for their interest to arrange their schools, if possible, so as to include its summer vacation, viz: the months of July, August and September. Communications from all such officers will receive prompt attention.

Students of this Institution, desiring to teach, will be furnished certificates of membership and standing. As a means of protection against imposition, applicants for schools claiming to be from Atlanta University should be required to exhibit such certificates.

It is expected that a majority of the students will engage in teaching, and instruction in all departments is adapted to that end. Earnest efforts are made to induce young men to prepare for the ministry.

GRAVES LIBRARY.

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains over six thousand volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, which insures its steady growth.

In connection with the Library is a Reading Room, well supplied with the leading papers and periodicals of the country, and the students have free access to both.

APPARATUS.

A good beginning has been made in procuring Philosophical Apparatus. Enough has been obtained for illustrating some of the simpler principles of Natural Science, and also instruments for Surveying and Engineering purposes.

An excellent telescope and microscope have been secured, largely by the gift of friends.

MUSIC.

Facilities for instruction in both Vocal and Instrumental Music are ample. The elements of Vocal Music are taught without extra charge, by the Tonic Sol-fa Method.

For practice in Instrumental Music, there are four organs and two pianos. (See expenses.)

INDUSTRIAL TRAINING.

The boys of the College, College Preparatory and Normal courses, and the first two grades of the Grammar School course, are taught the use of tools. (See Mechanical Course, p. 21, and Knowles Industrial Building, p. 28.)

The boys are also taught some of the principles of farming and gardening. Attention is given to the raising and care of stock, to the raising of fodder crops, their comparative value and fitness for this soil and climate The cultivation of vegetables is encouraged by competition and prizes for the best results.

The girls are taught various branches of household science, such as plain sewing, dressmaking, cooking, and nursing the sick, to which an experienced teacher gives her whole attention in rooms fitted up for the purpose.

GOVERNMENT.

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, parents will be requested to take him home.

Suspension from school is resorted to when other means of correction fail.

When students are exposing themselves to permanent harm, it is expected that high-minded individuals will be governed by the dictates of conscience and common-sense, rather than by any false sense of honor, in regard to disclosing the facts to the proper authority.

MISCELLANEOUS SUGGESTIONS.

Each pupil should bring a Bible. It is needed for private reading, for the Sunday-school, and for the weekly Bible lesson.

It is well to bring the text books formerly used.

All should be provided with *warm* clothing.

Young women must have *rubbers* and *waterproofs.*

The use of expensive and showy dress is not permitted. Silks, velvets and jewelry worn by school girls are indicative neither of good taste nor good sense. Prints, ginghams and plain worsteds neatly made, and colored underskirts are the most approved wear. White dresses are not permissable—the washing of them being too expensive.

Parents will do well not to send clothing unless the request for it is endorsed by the Matron. No extra dress is required for the close of school.

Experience has taught that much evil comes from pupils receiving food or large quantities of fruit or candy from home. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed to Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, except by special permission.

Boarders are expected to furnish their own towels.

Keeping or using fire arms on the premises is forbidden.

During term-time, students shall not, without permission, actively participate in any political or mass meeting.

Students from a distance should arrange their journeys so as not to arrive on the Sabbath, as they will not be admitted on that day.

When going away, they should apply for dismission in season to arrive at home before the Sabbath.

Students are not allowed to make visits on the Sabbath, and their friends are earnestly requested not to call upon them on that day.

The Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Among the appropriate means for securing such results, the Sabbath, with its religious services, is most important. The excitement of visiting friends prevents, in a great measure, the benefit that may be derived from a proper observance of the day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral, and religious culture, receive careful attention.

BUILDINGS.

The buildings are situated on high ground in the western part of the city, and are surrounded by about sixty acres of land belonging to the Institution.

DORMITORIES.—During the summer of 1869 a plain four-storied, brick building was erected, containing sleeping rooms for about forty pupils, and also a parlor, dining room, kitchen, etc. It was designed for a girls' dormitory, but, during the first year, furnished all accommodations, both school and boarding, for boys and girls. In August of 1870, another building of the same style, but larger, containing sleeping rooms for about sixty boys, besides temporary school-rooms, was completed. In the summer of 1871 this building was enlarged by a wing, providing rooms for about forty additional pupils, and other school-rooms. In the summer of 1880, a portion of the gift of Mrs. Stone, of Malden, Mass., was used in erecting a wing to the first named building. This wing provides for fifty additional pupils, and has a large study hall.

In the summer of 1884, large rooms for the accommodation of the cooking classes and for other purposes, were added to this building.

STONE HALL.—This building, erected in 1882, stands between the two dormitories, and is the gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel and library; the school-room, recitation and lecture rooms for the more advanced students; the philosophical and chemical laboratory; offices, etc. This building and the two dormitories are heated by steam from one large engine.

KNOWLES INDUSTRIAL BUILDING.—This building, erected in 1884, is for the use of the Mechanical Department. It is a memorial of

the late Mr. L. J. Knowles, Worcester, Mass., his widow having appropriated from his estate $6,000 for its erection.

The building is of brick, one hundred by forty-four feet, and three stories high. One room, forty by fifty feet, is furnished with eighteen cabinet benches, each fitted out with the following tools: Rip saw, cut off saw, panel saw, back saw, compas saw, claw hammer, hatchet, mallet, jack plane, jointing plane, smoothing plane, block plane, four paring chisels, two mortising chisels, six bits and countersinks, bit brace, rule, steel square, try square, bevel, dividers, gauge, draw knife, spoke shave, screw driver, brad awl, nail-set, oil stone and oil can.

In another room are twelve wood turning lathes, run by steam power. More machinery will be added next year for both wood and iron work.

Other contributors toward the building and its furnishing are Mr. F. C. Sessions, of Columbus, O., $700.00; the Slater Fund, $500.00; a friend in New York, and friends in Massachusetts.

THE BARN.—A barn erected in 1882, forty by sixty feet, with cellar the same size, furnishes facilities for the development of the farm work of the Institution.

PROJECTED BUILDINGS.—Efforts are being made to raise money for a Cottage for the Housekeeping School, and also for a building for the Grammar School, which may give greater advantages as a practice school for the Normal Department.

FUNDS.

The school being almost entirely without endowments, is dependent upon the American Missionary Association for all support not derived from other sources.

The Legislature of Georgia, in 1870, appropriated to this school $8,000. The same amount was received in 1871 and in 1873. In 1874 a bill was almost unanimously passed making an annual appropriation of $8,000. The bill was entitled "An act equitably to adjust the claims of the colored people to a share of the Agricultural Land Scrip." It made the appropriation on condition that the Board of Visitors of the University of Georgia should also visit this school; that the money should not be paid by the Governor till a commission of three members of the Faculty of the University of Georgia had approved the plan of the Trustees for the expenditure of the money, and that the school should educate, free of charge for tuition, one pupil for every member of the House of Representatives, to be nominated by the members. The

Constitutional Convention of 1877 recognized the constitutionality of such legislation.

The Trustees of the John F. Slater Fund have appropriated $1,400 a year, a part of which is used for aiding students.

Mr. Tuthill King, of Chicago, has founded the King Scholarship Fund of five thousand dollars.

Mr. J. H. Cassedy, of New York, has founded the Cassedy Scholarship Fund of five thousand dollars.

The late Hon. Wm. E. Dodge, of New York, has founded the Dodge Scholarship Fund of five thousand dollars.

A friend has founded the Hastings Scholarship Fund of one thousand dollars.

The Plainfield Scholarship Fund consists of three hundred dollars, and the Garfield Scholarship Fund, now being raised, has reached the sum of $446.61.

The late Mrs. Sarah C. Boyd, of Bradford, Mass., has founded the Malcom Boyd Scholarship Fund of five hundred dollars.

WANTS.

Our most pressing needs at present are the following:

Donations for Student aid.

Donations for increased current expenses incident to the enlargement and improvement of our work.

Donations for additional buildings.

Donations for blacksmith's tools and iron-working machinery.

Donations for printing press.

Endowment of professors' chairs.

An endowment of at least one hundred thousand dollars for current expenses.

THE WORK OF OUR PUPILS.

Nearly all the graduates and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the three months of the summer vacation, a large number of students engage in teaching, and it is estimated that over ten thousand children in Georgia are taught, annually, by those who have been connected with the Institution.

REPORT OF THE STATE BOARD OF VISITORS.

To the Board of Visitors:

Your committee, appointed for the purpose of examining the work and condition of the Atlanta University, submit the following report:

The Institution owns sixty acres of land in the western portion of Atlanta, admirably suited, in topography, to the purposes of education. There are four large buildings used in the various departments of the school, affording ample accommodation for the large number of students in attendance. The equipment of every department, if not complete, is of the best style. None of the modern facilities of instruction have been omitted. The total investment has been about $150,000, nearly all of which has been contributed, from time to time, by the friends of the institution at the North. There are nineteen teachers and officers in charge of the various departments of the University. The curriculum is divided into five courses: Preparatory, Grammar School, Normal, College and Mechanical. In these several courses the students are given instruction in the Classics, Mathematics, Sciences, English, Temperance, and Methods of Teaching. The curriculum, while not so complete as the usual college course, is well adapted to the requirements of the students.

The Mechanical course has been recently adopted as a part of the curriculum. All students of the Normal and College courses are required, in addition, to take the Mechanical course. This department is in charge of a practical mechanic, who teaches, during the first year, the use of wood-working tools, and in the second, the use of the lathe and jig saw. In the third year, pattern-making, drawing with instruments, and metal working are taught.

In the boarding department the females are taught the various kinds of home-work—cooking, sewing, etc.

All the male students are required to work on the college farm one hour each day. Small areas of ground are assigned to the pupils for competitive work, and premiums are given to the successful.

In the examination of the work done in these several departments, your committee have been impressed with several facts:

1. The Complete Equipments.—All that money can supply in making the steps of education easy have been brought into requisition for the benefit of the students.

2. The Perfect Order and Discipline.—In the various assemblies, during our presence at the University, good order prevailed, manifesting a state of perfect discipline. There was no defacement of

floor and walls, which would be expected in a school of young people.

3. The Clearness of Statement in Examination.—We desire to state that, in our opinion, in testing the knowledge of pupils, oral examinations are not so accurate a method as written. In the short time assigned for recitation, it is impossible to determine each pupil's knowledge. But in the oral examination conducted in our presence, we desire to especially commend the clearness and exactness of statement in rendering answers. The examination in every department exhibited a thorough text-book training.

4. The Methods of Instruction.—We cannot too highly commend the patient, pains-taking, enthusiastic teachers who seemed fully equipped in mind and heart for the great work in which they are engaged.

Finally, The Mechanical Course.—Recognizing the fact that the greatest benefit to the State from the education of the colored man lies in his preparation for agricultural and mechanical occupation, we feel that this department deserves special notice.

We feel sure that if the students of the University are sent into active life as practical mechanics, the charge cannot be made that mere drones are thrown upon society. On the contrary, the special demand of the times seems to be practical workers in all the departments of business: and if the same feature were added to all the schools of our State, we cannot but believe that, within a few years, Georgia would not find it necessary to draw upon other sections for the practical development of her resources.

During the past year 297 students have been in attendance.

In the College Course	14
In the Preparatory Course	29
In the Normal Course	63
In the Grammar School Course	191

Of this number 171 are boarders, representing 58 counties. Under the statute each representative may appoint one student to be taught at the University free of charge.

Since its inception, in 1876, this institution has graduated 133 students. Of these graduates 81 have become teachers, 6 ministers, 3 lawyers, and 8 have been in the service of the United States Government. Some are reported as "in business;" others are not reported at all. The number of graduates does not represent the number who have been under the tuition of the University.

A great many have not continued to graduation. It is estimated that several thousand have been, from time to time, connected with the University. Under the influence of this and other institutions, the

illiteracy of the colored population will be steadily reduced. In conclusion, from a careful examination of the management of the Atlanta University, we cheerfully commend it to the fostering care of the State.

Respectfully submitted.

J. G. PARKS,
CHAS. MCCORD.
CHAS. M. NEEL.

Adopted:

I. W. AVERY, Chm'n Board of Visitors.
EDWARD HUNTER, Sec'y Board of Visitors.

GARFIELD SCHOLARSHIP.

The Garfield Scholarship of one thousand dollars, is being raised in the South. The amount already received has come chiefly from the "Weekly Offerings" at the University, from former pupils, and from schools under the instruction of present and former pupils.

The following amounts have been received up to May 26, 1886:

Previously acknowledged	$ 390 46
GEORGIA.	
Atlanta, Teachers and Students of Atlanta University	43 60
Atlanta, Atlanta University Concert Club	12 25
Hawkinsville, Paul C. Coley	30
	$446 61

CASH DONATIONS
